Flowers for Brother Mudd - Judith Mudd-Krijgelmans 2018

Beyond overcoming, Judith Mudd-Krijgelmans' memoir is one of hope and resilience. *Flowers for Brother Mudd: One Woman's Path from Jim Crow to Career Diplomat* explores the paradox of an African American and a Catholic - a minority within a minority - who craved a wider future. Find out how a girl from Louisville,

Kentucky's Smoke Town forged independent-mindedness to survive a segregated society. Learn what propelled this "colored girl" to jet across the world for three decades in a career that she chose at age 16. This former diplomat recounts the cushioning love of her upstanding, social studies teacher father, who rose from tobacco farming to head a school in coal country; and imaginative mother from Virginia's Blue Ridge Mountains. She salutes the Ursuline Sisters; educators at Morgan State and American Universities; and in India where she went on a Fulbright. In the face of a bleak future if Civil Rights changes hadn't come, she shows how a person of color could thrive and strive to tell her story to the world.

International Handbook on Teaching and

Learning Economics - Gail Mitchell Hoyt 2012

ÔThe International Handbook on Teaching and Learning Economics is a power packed resource for anyone interested in investing time into the effective improvement of their personal teaching methods, and for those who desire to teach

students how to think like an economist. It sets guidelines for the successful integration of economics into a wide variety of traditional and non-traditional settings in college and graduate courses with some attention paid to primary and secondary classrooms. . . The International Handbook on Teaching and Learning Economics is highly recommended for all economics instructors and individuals supporting economic education in courses in and outside of the major. This Handbook provides a multitude of rich resources that make it easy for new and veteran instructors to improve their instruction in ways promising to excite an increasing number of students about learning economics. This Handbook should be on every instructor's desk and referenced regularly. ð Tawni Hunt Ferrarini, *The American Economist* ð In delightfully readable short chapters by leaders in the sub-fields who are also committed teachers, this encyclopedia of how and what in teaching economics covers everything. There is

nothing else like it, and it should be required reading for anyone starting a teaching career ð and for anyone who has been teaching for fewer than 50 years! ð Daniel S. Hamermesh, University of Texas, Austin, US The International Handbook on Teaching and Learning Economics provides a comprehensive resource for instructors and researchers in economics, both new and experienced. This wide-ranging collection is designed to enhance student learning by helping economic educators learn more about course content, pedagogic techniques, and the scholarship of the teaching enterprise. The internationally renowned contributors present an exhaustive compilation of accessible insights into major research in economic education across a wide range of topic areas including: ¥ Pedagogic practice ð teaching techniques, technology use, assessment, contextual techniques, and K-12 practices. ¥ Research findings ð principles courses, measurement, factors influencing student

performance, evaluation, and the scholarship of teaching and learning. ¥

Institutional/administrative issues Ð faculty development, the undergraduate and graduate student, and international perspectives. ¥ Teaching enhancement initiatives Ð foundations, organizations, and workshops. Grounded in research, and covering past and present knowledge as well as future challenges, this detailed compendium of economics education will prove an invaluable reference tool for all involved in the teaching of economics: graduate students, new teachers, lecturers, faculty, researchers, chairs, deans and directors.

Bread and Roses - Dee Michell 2015-06-26
Bread and Roses is an Australian first, a collection of stories from academics who identify as coming from working-class backgrounds. At once inspiring and challenging, the collection demonstrates how individual narratives are both personal and structural, in that they illustrate the ways in which social forces shape individual lives. Central themes in the book are generational changes in university education provision in Australia, the complexities of coming from a working class background and being female, or coming from a working class background and being female and a recent migrant, and the particular challenges facing students and staff from rural and regional areas.

An essential read for anyone interested in widening participation programs in higher education, including administrators, academics, past and present students, Bread and Roses is both a map for those who want to undertake a similar journey and a community for those who want to join.

The Refugee - VIC K. A 2022-11-03

This is a compelling story about my experience in my country's civil war. Each time I revisit that time capsule, it brings back my memory of the events that took place during the war. It was the most miserable moment of my life when my city was overrun by the invading soldiers. In view of this, my family had to evacuate my city to a neighboring town about thirty miles away. My father did not stay to welcome the invading

soldiers because he sat high in the socioaEUR"economic standard in the rebel area. My father left his city on the advice of his governor and the military leaders in his city; he was compelled to desert his subjects to other towns. We stayed in this other town for about three months when it was besieged by the invading army, and we had to evacuate this town again for another town almost forty miles away from my original town. Our refugee journey had begun, and the epic journey continued as we traveled to more than four towns. My father became the father of more than two hundred refugees who depended on him for survival. Fortunately, the governor aEUR"or the administrator, as he was called thenaEUR" was always very close to my father to assist him in all he needed to house and feed the refugees that followed along with him. There was mass starvation and severe malnutrition in the refugee camps that made my father very weary of the situation. My father became very

emaciated and became very sick. Unfortunately, he succumbed to the heart attack that fell on him; he died and was buried unceremoniously in the village that was not his. His death looked like the end of the refugees, but my uncle had to continue to bear the cross of all the refugees until the war ended after three years of refugee life. You don't know the evils of war until you are a refugee.

Introductory Macro-Economics - Jack Rudman 1997-02

The College Level Examination Program (CLEP) enables students to demonstrate college-level achievement and earn college credit in various subject areas based on knowledge acquired through self-study, high school and adult courses, or through professional means. The CLEP Principles of/Introductory Macroeconomics Passbook(R) prepares you by sharpening knowledge of the skills and concepts necessary to succeed on the upcoming exam and the college courses that follow. It provides a

series of informational texts as well as hundreds of questions and answers in the areas that will likely be covered on your upcoming exam, including but not limited to: government and economy; money and banking; taxation; economic growth and development; and more.

Teaching Economics in Troubled Times - Mark C. Schug 2011-01-03

In the Great Recession of 2007-2010, Americans watched their retirement savings erode and the value of their homes decline while the unemployment rate increased and GDP sank. New demands emerged for unprecedented government intervention into the economy. While these changes have a dramatic impact on society at large, they also have serious implications for the content and teaching of economics. Teaching Economics in a Time of Unprecedented Change is a one-stop collection that helps pre- and in-service social studies teachers to foster an understanding of classic content as well as recent economic

developments. Part I offers clear and teachable overviews of the nature of today's complex economic crisis and the corollary changes in teaching economics that flow from revising and updating long-held economic assumptions. Part II provides both detailed best practices for teaching economics in the social studies classroom and frameworks for teaching economics within different contexts including personal finance, entrepreneurship, and history. Part III concludes with effective strategies for teaching at the elementary and secondary school levels based on current research on economic education. From advice on what every economics teacher should know, to tips for best education practices, to investigations into what research tells us about teaching economics, this collection provides a wealth of contextual background and teaching ideas for today's economics and social studies educators.
