Coverage includes: A scientific framework for learning RF and

microwaves easily and effectively Fundamental RF and microwave concepts and their applications The characterization of two-port networks at RF and microwaves using S-parameters Use of the Smith Chart to simplify analysis of complex design problems Key design considerations for microwave amplifiers: stability, gain, and noise Workable considerations in the design of practical active circuits: amplifiers, oscillators, frequency converters, control circuits RF and Microwave Integrated Circuits (MICs) Novel use of "live math" in circuit analysis and design Dr. Radmanesh has drawn upon his many years of practical experience in the microwave industry and educational arena to introduce an exceptionally wide range of practical concepts and design methodology and techniques in the most comprehensible fashion. Applications include small-signal, narrow-band, low noise, broadband and multistage transistor

amplifiers; large signal/high power amplifiers; microwave transistor oscillators, negative-resistance circuits, microwave mixers, rectifiers and detectors, switches, phase shifters and attenuators. *You Are Your Best Thing* -  
Tarana Burke 2021-04-27  
NEW YORK TIMES  
BESTSELLER • Tarana Burke

and Dr. Brené Brown bring  
together a dynamic group of  
Black writers, organizers,  
artists, academics, and cultural  
figures to discuss the topics the  
two have dedicated their lives  
to understanding and teaching:  
vulnerability and shame  
resilience. Contributions by  
Kiese Laymon, Imani Perry,  
Laverne Cox, Jason Reynolds,  
Austin Channing Brown, and  
more NAMED ONE OF THE  
BEST BOOKS OF THE YEAR  
BY MARIE CLAIRE AND  
BOOKRIOT It started as a text  
between two friends. Tarana  
Burke, founder of the 'me too.'  
Movement, texted researcher  
and writer Brené Brown to see  
if she was free to jump on a  
call. Brené assumed that  
Tarana wanted to talk about  
wallpaper. They had been  
trading home decorating  
inspiration boards in their last  
text conversation so Brené  
started scrolling to find her  
latest Pinterest pictures when  
the phone rang. But it was  
immediately clear to Brené that  
the conversation wasn't going  
to be about wallpaper. Tarana's  
hello was serious and she

hesitated for a bit before saying, "Brené, you know your work affected me so deeply, but as a Black woman, I've sometimes had to feel like I have to contort myself to fit into some of your words. The core of it rings so true for me, but the application has been harder." Brené replied, "I'm so glad we're talking about this. It makes sense to me. Especially in terms of vulnerability. How do you take the armor off in a country where you're not physically or emotionally safe?" Long pause. "That's why I'm calling," said Tarana. "What do you think about working together on a book about the Black experience with vulnerability and shame resilience?" There was no hesitation. Burke and Brown are the perfect pair to usher in this stark, potent collection of essays on Black shame and healing. Along with the anthology contributors, they create a space to recognize and process the trauma of white supremacy, a space to be vulnerable and affirm the fullness of Black love and Black

life.
