

# Proof That John Lennon Faked His Death

When somebody should go to the books stores, search opening by shop, shelf by shelf, it is truly problematic. This is why we give the book compilations in this website. It will very ease you to see guide **Proof That John Lennon Faked His Death** as you such as.

By searching the title, publisher, or authors of guide you in reality want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be all best place within net connections. If you seek to download and install the Proof That John Lennon Faked His Death , it is unconditionally easy then, back currently we extend the colleague to buy and make bargains to download and install Proof That John Lennon Faked His Death appropriately simple!

Uncle John's Bathroom Reader Fake Facts - Bathroom Readers' Institute 2012-09-01

From the market leader in true facts comes a big book of hilariously false information. The crackpot staff of the Bathroom Readers' Institute is out of control. After 25 years of laboriously researching facts and verifying them and then verifying them again, Uncle John's mischievous minions decided to blow off a little steam. The result: Fake Facts. It's stuff that isn't even remotely true--we just made it sound real. Why? Because it's really funny. Fake Facts is 228 pages of origins, facts, weird products, strange diseases, kooky fads, slang terms, historical oddities, and other fascinating bits of information that are too good to be true...because they aren't true. So put aside your BS detector and settle in to read about: \* The ill-fated "Vice President For a Day" for kids program \* How the overfishing of dolphins led to the canned tuna industry \* "Crumble," "plaidy," "benji," and other British slang \* Abandoned rules of early baseball, and obscure rules of grammar \* How early vegetarians gave Boston its "Beantown" nickname \* The secret superpowers of twins \* James Joyce's unpublished sci-fi trilogy \* Unicorns, wizards, and pirates galore And lots more falsified fun!

**A Shrimp Leart to Whistle** - Sarah Hurst 1997

**John Lennon's Secret** - David Stuart Ryan 2013-09-30

The amazing story of the rise of John Lennon's group - The Beatles - to fame and fortune. David Stuart Ryan carried out a great deal of original research into the true background to John, speaking to many of the characters who helped form his intense view of the world. This was backed up with full access to the files of Time magazine. The result is a comprehensive picture of a great artist living at a time of both tumult and awakening. The author spoke to many of the key people for John, including his formidable Aunt Mimi, who brought him up after his mother's marriage hit problems because of the Second World War. There is Liverpool DJ Bob Wooler, who was perhaps the first to recognise the genius of the Beatles, the presciently wrote 'There will never be another band like the Beatles again.' That was while they were still just a Cavern club lunchtime band. Then you'll meet his first manager, Alan Williams, who in a most weird and almost preordained way, arranged for the unknown group to take up a prestige residency in Hamburg, an engagement that was to transform them from a run of the mill provincial group into a world beating combination of individual talents. The seething contradictions of a red light district in early post-war Germany where just about anything went were the forcing ground for an entirely new kind of music. There are many secrets and surprises associated with John Lennon's early troubled life that are hinted at, but never fully revealed, in many of his songs and hits. John Lennon's Secret reveals these to you one by one. Strawberry Fields was a Salvation Army run home for abandoned children which lay just behind his aunt's house. Feeling himself abandoned, it had many associations for him, it was where he could be himself, no wonder it is the subject of his most outstanding and haunting song. All through this fast moving examination of the life of John Lennon you discover sides to him that are little known, even by those who grew up with him, such as Paul McCartney. There are more revelations about what exactly the relationship was with his musical partner, and the secrets they shared that made them such a formidable team. As the myth of the Beatles continues to thrive and grow, it is time for you to find out what really went on in the formation of a band who captured the wonder and amazement of the whole world. There are more than 20 original photographs in the book to take you behind the scenes and chart the rise of the super group to mega stardom and its ways. Even if you thought you knew the story, prepare for surprises, and smiles, on every page of John Lennon's Secret. This really is the true version of events that shook the musical world. Review from the Mail on Sunday ===== WHIZZY

WORLD OF JOHN LENNON "This weird, wild and generally whizzy examination of Lennon's life, loves, lyrics and old laundry lists is a whole lot of fun. Good photos too." One of the first biographies to appear, still proved to be the most accurate about both John Lennon and the extraordinary phenomenon that was The Beatles.

*Time* - Briton Hadden 1994-04

Sins of Two Fathers - Denis Hamill 2003-10-30

You will now feel the pain I have felt for the past ten years, Hank Tobin. You are going to know what it is like to have your son suffer for the sins of his father, which is the worst pain any man will ever know. Hank Tobin had it all: a popular column in a New York newspaper, a Pulitzer prize, and wealth that enabled him to live his boyhood dreams. But his world is shattered when his son -- himself an aspiring journalist -- follows an anonymous tip to a can't-miss front-page story: the firebombing of a Brooklyn mosque. Hank's son is accused of the crime, arrested, and thrown into prison. Hank soon discovers that his son was framed by a man who has been waiting a decade to have his revenge. Sitting in a seedy New York bar ten years earlier, Hank overheard a janitor bragging that his son torched the home of a minority family to keep the neighborhood white. Hank's story of the event made the front page. The boy spent ten years in prison and the family was destroyed -- a minor event in the life of the columnist, a life-altering event for the janitor and his family. Hank's life is in ruins. Divorced from his wife -- whom he desperately wants back -- and estranged by his daughter, Hank has lost his reputation, his career, and his family. To save his son from a long prison sentence, Hank must confront the vengeful man whose life he once carelessly destroyed.

Elvis Presley - Spencer Leigh 2017-08-03

Published to coincide with the 40th anniversary of Elvis death. As well as being the greatest solo star of the 20th century, Elvis Presley's career is full of controversy and Spencer Leigh's new biography ELVIS PRESLEY: CAUGHT IN A TRAP sorts out facts from the fiction. What separated Elvis Presley from his contemporaries, just how important was Colonel Parker, how did he come to reinvent himself for Las Vegas, did he have to die so young, and why does his legend endure. How good a singer was he, how good an actor was he, and was he caught in a trap, perhaps set by Colonel Parker Spencer Leigh has spoken to band members, songwriters, friends, fans and many people who have worked with the King, and he examines the evidence with the scrutiny of a forensic scientist. With a Foreword by RUSSELL WATSON, the 'People's Tenor'. The Long and Winding Road from Blake to the Beatles - M. Schneider 2008-06-23

This book traces the musical and cultural achievements of this contemporary musical phenomenon to its origin in the Romantic revolution of the 1790's in England when traditional concepts of literature, politics, education and social relationships were challenged as they were in the 1960's.

Who Killed John Lennon? - Fenton Bresler 1990

Based on six years of extensive research into the background and motives of assassin Mark Chapman and the circumstances of the murder, the author contends that Chapman was part of a political plot

**Collecting Autographs** - Susan Brewer 2011-04-22

Written by collectables expert Susan Brewer, the book covers the world of autographs, both beautifully-illustrated autograph books from the days when ordinary people signed them for friends with thoughtful poems or illustrations, to celebrity and highly collectable autographs. Hundreds of verses and reflective messages are included, as well as many humorous entries gleaned from autograph albums over the years. The book begins with a general overview of autographs, autograph collecting and autograph books, has a chapter on preserving and storing autographs, advice on how to collect them and ends with a directory of auction

houses which specialise in ephemera. Examples of autographs include Victorian politicians, Prime Ministers, royalty, artists, actors, sportsmen and ordinary people who took the time to think up clever rhymes or stunning illustrations. Aimed at the collectable market but also nostalgia as so many people used to collect autographs at stage doors or end of pier shows. This book will appeal not only to the collector but to anyone interested in social history and our changing way of life.

**John Lennon & Me** - Cherie Bennett 1996

**The Men From Miami** - Christopher Othen 2022-05-12

The Men from Miami is a real-life Cold War thriller about the Americans who fought for Fidel Castro in the Cuban revolution - then switched sides to try to bring him down. This larger-than-life assortment of adventurers and misfits wreaked havoc across the Caribbean as they fought for and against Castro, then went on to be implicated in President John F. Kennedy's assassination, a failed invasion of 'Papa Doc' Duvalier's Haiti, and the downfall of President Nixon. Back in 1957, Fidel Castro was a hero to many in the United States for his battle against Cuba's dictatorial regime. Two dozen American adventurers joined his rebel band in the mountains, including fervent idealists, a trio of teens from Guantánamo Bay naval base, a sleazy ex-con who liked underage girls, and at least two future murderers. The rebels' eventual victory delighted the USA - but then Castro ran up the red flag and some started wondering if they'd supported the wrong side. Many of Castro's now disillusioned American volunteers - most importantly Frank Fiorini, who would become infamous for his role in the Watergate burglary, and Alex Rorke, whose mysterious 1963 disappearance remains unsolved - changed sides and joined the Cuban exiles who had washed up in Miami. Their numbers swelled with the arrival of amateur mercenaries from across America ready to drink beer and fight communism. Meanwhile, CIA agents were training Cuban paramilitaries in the Everglades and working alongside the Mafia to assassinate Castro. The Cold War had arrived in Florida, and things would never be the same again.

Ordinary Reactions to Extraordinary Events - Ray Broadus Browne 2001

The essays in this collection present communities beset by unexpected social and physical events. Some outline immediate responses that soon pass and some that will not go away. Who would have foreseen that Elvis would be a phenomenon apparently as lasting as the faces on Mount Rushmore? Cultural history will not allow us to forget the H. G. Wells account of the Martian attack, nor can we ever forget the continued terror of the Chernobyl explosion. Ordinary Reactions to Extraordinary Events catalogues on the Geiger counter of human emotions societal reactions to events both earthshaking and culture-disturbing.

**Money for Power** - John P. Hunter III 2014-07-27

\$ MONEY \$ It is understandable that we all need money for survival purposes. This is fine and dandy; is acceptable in society but to purposely defraud other people, to get possession of money, is unacceptable no matter of any circumstance. Politicians seem to hoard onto this conception that money is their 'GOD'. The more they possess, the more they have power to control. Politicians, drug cartels, gangs and let us not forget religion are aware of this fact. The richer you are in society, the better people will follow you, supposedly. The 'Elite' in all societies of the world are equally guilty of this crime, called murder on the unsuspecting citizens by depriving these citizens of certain 'FREEDOMS' or plainly swindling them out of their hard earned money, not included are the lazy, incompetent people, who devour the "Welfare System" dry, not even trying to better themselves. Murder is hidden by the non-compliance of doing the right thing as it happens, for prevention as well as protection. This is where this book illustrates certain areas in our American past, which contribute to the beginning of corruption. Corruption is a way of dishonest living in order to remain on top or even to gain the top position. Political separation of parties are a way of distracting the public's focus of what all politicians are involved in, unconstitutional, biased, prejudice and let us begin the "Olympic Blame Game" of each party is guilty but not me, when in reality all are involved in a 'False Flag' cover-up of camouflaged deception, to gain more wealth even if it includes a mass murder. You will be amazed about certain people involved in this book, which seemed honest but in reality are very wicked indeed. This book is the sequel to "AMERICA, The Sleeping Giants MUST Awake" which explains into depth 'Barack Hussein Obama, the creator of 'Obamanism' and of his cronies at large.

**Conspiracy Encyclopedia** - Thom Burnett 2006

Conspiracies are everywhere. they are the lifeblood of politics, business and our daily lives. this truly international and all-embracing encyclopedia explains the details of the world's major popular

conspiracies, listing them chronologically under subject matter and cross-referencing them continually (because so many conspiracy theories interact on some level). Conspiracies are often international in their sweep and their impact. the brutal stabbing of Julius Caesar (the conspiracy which has defined political assassinations ever since) plunged the Roman Empire into civil war, which then engulfed much of the known western world. More recently the Cambridge spies (Philby, Blunt, MacLean and Burgess) helped Russia throughout WWII and then re-defined the Cold War afterwards, Philby's defection casting a 30-year shadow over CIA/Anglo-American relations. though conspiracies define our everyday lives, there is no body of serious academic research to understand their role, nature or defining characteristics. Most historians prefer to adhere to the cock-up theory of history, in which everything happens by accident or incompetence. Although this view is favoured by academics and historians, it is rejected by a large part of the general public who prefer the evidence of their own lives. However they consume their media, what they see is a mesh of conspiracies that define the texture of their everyday lives, often for the worst. Most people believe that there is a grain of truth in most theories about conspiracies. this book is for them.

*The Vampire's Secret* - Raven Hart 2007

In the sequel to *The Vampire's Seduction*, Southern aristocrat-turned-vampire William Cuyler Thorne takes on the vicious followers of his creator, Reedrock, the one-time mentor whom William has defeated, as he and his team prepare for the ultimate showdown, only to discover that a female vampire with unusual powers is the key to ultimate victory. Original.

*Music of the Counterculture Era* - James E. Perone 2004

Presents a history of popular music during the 1960s and 1970s and weighs its influence on the art, politics, and culture of the era.

**A Certain Point of View** - Eddie Hall 2012-02-01

Being a web designer, racing driver and generally grumpy individual, Eddie Hall has an opinion on most subject matters and would like to get on his soapbox and offer an explanation on subjects like why going to school is bad for your education (I spent over a decade of my life in education and what was the most important lesson I learned? That it is a complete waste of time), why people who drive a Nissan Micra should be locked up (they always seem to be the worst offenders on the road), why celebrities will be the death of the human race (most of them have no talent whatsoever and why in the name of Greek buggery do they insist on naming their poor children after fruits of the forest?) and many other unanswerable questions. During the course of ranting about anything and everything, Eddie tries to unravel the mystery behind why the world is such a confusing and frustrating place to live. The contents of this book contain opinions that most people share but few are prepared to admit. You will either find this book amusing or offensive. Either is fine by Eddie! Each chapter of *A Certain Point of View* is its own satirical rant about a particular subject. Eddie, whose writing style is comparable to that of Jeremy Clarkson, adopts an informal, conversational style that draws the reader in and encourages them to relate to the material, which revolves around today's society and current affairs. It will appeal to fans of humorous books.

**John Lennon in My Life** - Peter Shotton 1984

**The Search for John Lennon** - Lesley-Ann Jones 2020-12-01

Pulling back the many hidden layers of John Lennon's life, Lesley-Ann Jones closely tracks the events and personality traits that led to the rock star living in self-imposed exile in New York—where he was shot dead outside his apartment on that fateful autumn day forty years ago. Late on December 8th, 1980, the world abruptly stopped turning for millions, as news broke that the world's most beloved bard had been gunned down in cold blood in New York city. The most iconic Beatle left behind an unrivaled body of music and legions of faithful disciples—yet his profound legacy has brought with it as many questions and contradictions as his music has provided truths and certainties. In this compelling exploration, acclaimed music biographer Lesley-Ann Jones unravels the enigma that was John Lennon to present a complete portrait of the man, his life, his loves, his music, his untimely death and, ultimately, his legacy. Using fresh first-hand research, unseen material and exclusive interviews with the people who knew Lennon best, Jones' search for answers offers a spellbinding, 360-degree view of one of the world's most iconic music legends. *The Search for John Lennon* delves deep into psyche of the world's most storied musician—the good, the bad and the genius—forty years on from his tragic death.

**More Information Than You Require** - John Hodgman 2012-10-02

The New York Times bestseller by Famous Minor Television Personality John Hodgman—The Daily Show's "Resident Expert" and the "PC" in the iconic Apple ads—picks up exactly where his first book left off. In fact, "the new volume is in every way a continuation of *Areas of My Expertise*, except in the ways it's clearly superior." (The Onion AV Club) In 2005, John Hodgman published his first compendium of *Complete World Knowledge*, *The Areas of My Expertise*, a handy volume of fake trivia and made-up facts. Hodgmania was born. Virtually overnight, John Hodgman was whisked from tweedy obscurity to the high ether of minor celebrity. And from his strange new vantage point as a Famous Minor Television Personality, Hodgman realized that there is some world knowledge yet to be documented. And so he returned to exactly where he had left off—namely, page 256 of the paperback edition of *The Areas of My Expertise*. And he brought with him: *MORE INFORMATION THAN YOU REQUIRE*. Which, naturally, begins on page 257. Like its predecessor, *More Information Than You Require* consists of brief articles, overlong lists, frighteningly complex charts, and beguiling narratives on new and familiar themes such as: *THE PAST* (because there is always more of it) *THE FUTURE* (because they say there is still some left) *MOLE-MEN* (including a list of 700 Mole-man names) *GAMBLING, THE SPORT OF THE ATHSMATIC MAN* (including hermit crab racing) *CRYPTOGEOGRAPHY* (including Canada) *HOW TO BE A FAMOUS MINOR TELEVISION PERSONALITY* (Hint: Go on television) *AND NOW*, the relatively pocket-sized and inexpensive paperback edition includes even more. *MORE INFORMATION THAN YOU REQUIRE*, updated to include the very latest in implausibility. *PLUS!*: This paperback edition includes a special self-expanding fold-out edition of *THE TAXONOMY OF COMPLETE WORLD KNOWLEDGE*, which you have probably never seen before because it has been carefully hidden. *UNTIL NOW*. Look out for John Hodgman's latest book, *Vacationland*, available from Viking in Fall 2017.

Van Halen - Michael Christopher 2021-10-06

Come the late '70s, the rock music landscape was littered with the bloated carcasses of bands who partied too hard, burned out, or became complacent in success. The door was open for something fresh, wild, and enrapturing. Enter Van Halen. Made up of two Dutch-born brothers, one on drums and the other whose guitar was an extension of his very being, a bass player with a golden throat, and a frontman who made up for his lack of singing ability with attitude and gravity-defying acrobatics onstage, they were unlike anything ever seen before. Alex and Edward Van Halen, Michael Anthony, and David Lee Roth put a cap on one decade and exploded into the next with a brand of music not quite punk, not quite metal, and not at all subtle. They went from headlining backyard keggers to top billing at the US Festival in front of three hundred thousand people within five years. Then, right when it looked like there wasn't an obstacle created to slow the Mighty Van Halen ascent, the group imploded from the inside out, only to rebound stronger than ever with ex-Montrose howler Sammy Hagar leading them to four consecutive number one albums. *Van Halen: The Eruption and the Aftershock* tells the story of how one of America's greatest bands weathered arguably the most dramatic soap opera in rock and roll history with songs that would weave themselves into the fabric of every musician who heard them, alongside an incendiary and unrivaled live show. Featuring exclusive interviews with insiders, fans, and artists who were there to witness the rise, the tumult, and the making of legends, it's a story that has to be read to be believed.

*Lennon Remembers* - Jann Wenner 2001-12-17

In this 1970 Rolling Stone interview, Lennon discusses the break-up of the Beatles, his favourite tracks with the group and how they were made, fellow musicians, his attitude towards revolution and drugs, and his relationship with Yoko Ono.

*American Literature in Transition, 1970-1980* - Kirk Curnutt 2018-03-22

*American Literature in Transition, 1970-1980* examines the literary developments of the twentieth-century's gaudiest decade. For a quarter century, filmmakers, musicians, and historians have returned to the era to explore the legacy of Watergate, stagflation, and Saturday Night Fever, uncovering the unique confluence of political and economic phenomena that make the period such a baffling time. Literary historians have never shown much interest in the era, however - a remarkable omission considering writers as diverse as Toni Morrison, Thomas Pynchon, Marilyn French, Adrienne Rich, Gay Talese, Norman Mailer, Alice Walker, and Octavia E. Butler were active. Over the course of twenty-one essays, contributors explore a range of controversial themes these writers tackled, from 1960s' nostalgia to feminism and the redefinition of masculinity to sexual liberation and rock 'n' roll. Other

essays address New Journalism, the rise of blockbuster culture, memoir and self-help, and crime fiction - all demonstrating that the Me Decade was nothing short of mesmerizing.

The Great Pretenders - Jan Bondeson 2005

A fun, fascinating collection of stories of suspect identity are collected here, including the legend of the "lost dauphin" of France and the missing prince of Daden, among other tales of famous people who may have lived alternate lives. Reprint. 13,000 first printing.

The Lennon Prophecy - Joseph Niezgodna 2008

Music.

All We Are Saying - David Sheff 2010-09-24

Twenty years ago David Sheff climbed the back steps of the Dakota into the personal thoughts and dreams of John Lennon and Yoko Ono. From the kitchen to the studio and up those fateful Dakota steps, Sheff recorded 20 hours of tape, discussing everything from childhood to the Beatles. Sheff gives a rare and last glimpse of John and Yoko, one that seemed to look beyond the kitchen table to the future of the world with startling premonitions of what was to come.

The Simpsons in the Classroom - Karma Waltonen 2014-01-10

The object of much debate, attention, and scholarship since it first aired more than 20 years ago, *The Simpsons* provides excellent, if unexpected, fodder for high school and college lesson plans. After all, laughing students are hardly sleeping students! But *The Simpsons* also provides a familiar student knowledge base which instructors can use as a jumping-off point to introduce concepts in literature, composition, linguistics, cultural studies, gender studies, and media appreciation. The authors, both of whom have been teaching *The Simpsons* for more than a decade, share exercises, prompts, and even syllabi that have proven successful in their own courses. Instructors considering this book for use in a course may request an examination copy here.

Time - 1994

Cached - Stephanie Ricker Schulte 2013-03-18

"This is the most culturally sophisticated history of the Internet yet written. We can't make sense of what the Internet means in our lives without reading Schulte's elegant account of what the Internet has meant at various points in the past 30 years."—Siva Vaidhyanathan, Chair of the Department of Media Studies at The University of Virginia In the 1980s and 1990s, the internet became a major player in the global economy and a revolutionary component of everyday life for much of the United States and the world. It offered users new ways to relate to one another, to share their lives, and to spend their time—shopping, working, learning, and even taking political or social action. Policymakers and news media attempted—and often struggled—to make sense of the emergence and expansion of this new technology. They imagined the internet in conflicting terms: as a toy for teenagers, a national security threat, a new democratic frontier, an information superhighway, a virtual reality, and a framework for promoting globalization and revolution. Schulte maintains that contested concepts had material consequences and helped shape not just our sense of the internet, but the development of the technology itself. *Cached* focuses on how people imagine and relate to technology, delving into the political and cultural debates that produced the internet as a core technology able to revise economics, politics, and culture, as well as to alter lived experience. Schulte illustrates the conflicting and indirect ways in which culture and policy combined to produce this transformative technology. Stephanie Ricker Schulte is an Assistant Professor of Communication at the University of Arkansas. In the *Critical Cultural Communication* series

The Covert War Against Rock - Alex Constantine 2000-05-01

The connections between government, organized crime, and the music industry are examined, offering compelling evidence that there may be more to the deaths of important popular musicians than has been commonly told.

Daddy-An Absolutely Authentic Fake Memoir - Andrea Troy 2008-11-13

What do you get when a preeminent newspaper recruits an opportunistic rug salesman as its moral pundit? You get, *Daddy-An Absolutely Authentic Fake Memoir*, a sharp, witty, and charmingly crass fictional tell-all that reveals warts-like truths about contemporary life. Inspired by real scandals about unreal memoirs, the novel is narrated by Candor Schatz's daughter who portrays her father, writer of *The Moralist* column for *The Worldly Times*, as a man full of hypocrisy, hubris, and humbuggery. An adult daughter's tell-all eyes and loose tongue inform this satiric novel. This light-hearted, zany romp debunks consumerism, commercialism, and other everyday mind-boggling transgressions, is a hoot to read! "Daddy is a credit to hypocrites everywhere!" E. Spitzer, *The Albany*

Press "Unlike A Million Little Pieces, Daddy is the real thing! At last!" O. Winfree "This book not only is fabulous, it's fatuous! Discriminating readers, judge for yourself!" The Scallion, Stinker Book Review "I can't believe it!" Mommy "A. Troy sure knows how to tell a tale! Catch her in the wry!" J.D.S "Daddy is a whacko-just like the rest of the nation!" V. Navasky "Takes your mind off your nerves! Read it while you're waiting for your neck lift!" Nora E.

Celebrities and Crime - Michael Newton 2008

Describes nine criminal cases involving celebrities and the investigations surrounding the crimes, including the kidnapping of the Lindbergh baby, the death of John Lennon, and the O.J. Simpson murder case.

Let Me Take You Down - Jack Jones 1994

He worshipped the singer - but despised the superstar. Obsessed with his idol, he was left with only one choice - the man had to die. Based on five years of exclusive interviews with Mark Chapman - the man who brutally gunned down John Lennon - LET ME TAKE YOU DOWN breaks through the myths, lies and rumours to uncover the true forces that drove Chapman to kill the world's most famous musician. With chilling lucidity, Chapman dissects - for the first time - his own doomed life. And Jack Jones, also gaining access to Chapman's wife friends, and psychiatrists, paints a hauntingly accurate portrait of the 'Nowhere Man' drawn to the Beatles, to The Catcher in the Rye, to charismatic Christianity, to devil worship - and to murder.

Mexico is Missing and Other Stories - J. David Stevens 2006

What's America to do when, one day, Mexico suddenly disappears? That question, asked by the title story in Mexico Is Missing, sets the tone for a collection whose individual stories have been described as "provocative," "intensely relevant," and "wickedly macabre." Thematically and formally diverse, these pieces are unified by their devotion to the offbeat, even insane, moments of contemporary life. A widow hears a voice from her computer that claims to be God. An unnamed narrator develops an unhealthy fascination with his mailman. Several characters from a joke come to life and wonder what to do with themselves. A poet married to a porn star considers the real meaning of love. The subjects of this volume range widely. From Snoopy to Southern Baptists, from witch trials to infomercials, from the President's golf game to...well, the President's penis-anything is fair game in a collection that blends satire with a sincere desire to find meaning in the jumbled world that we daily inhabit. A literary critic and author, Stevens also demonstrates his formal range by juxtaposing traditional linear stories against micro-fictions and longer "fractured" narratives. The result is a book that traverses the literary map with impressive dexterity. Individually, the stories in Mexico Is Missing will provide various pleasures for every reader. But taken together, they represent a more profound effort to blend those diametric impulses-formal, cultural, and sociopolitical-which so often define contemporary experience. This collection of 23 short stories by J. David Stevens is clever, sardonic, and humorous. While you're laughing Stevens also gives you plenty of things to think about-spirituality, the negligence of the mass media, American politics, and relationships. Book jacket.

The Lives of John Lennon - Albert Goldman 1989

Profiles John Lennon from his childhood to his death, reveals the offstage Lennon and the violence that shaped his tortured life, discusses Lennon's hidden existence with Yoko, and assesses his impact as a cultural hero

Debunked - Casey Lytle 2022-09-27

Head down the rabbit hole and feed your fascination for conspiracy and controversy. Conspiracy theories-they're influential and spread to sometimes irrational extremes. Why do people cling to conspiracy theories so powerfully? Is there a way to separate the possible from the impossible? Yes. Enter: Debunked. Conspiracy theories pop up surrounding every major national and global event-some are possible, some are not. TikTok influencer and psychology professor Casey Lytle will teach you how to be an intelligent consumer of "alternative" theories. Lytle's trademark "project management approach" will help you discern possible from impossible in the popular and controversial

theories surrounding 10 national and global events. 9/11-No fewer than 10 alternative theories have gained traction. But let's evaluate: Did the Twin Towers really look like a controlled demolition? Would jet fuel have to melt steel for the towers to collapse? What would it take in hours and people to secretly plant enough explosives to bring the buildings down without being discovered, and without being set off by the impact and fires from the planes? All this and more in Chapter 7. COVID-19-The vaccine implants a microchip used to track people; the fatality rate has been wildly inflated; oh, and Bill Gates is not only responsible for the virus but also the head of a plot to use the virus as population control. School shooters-why are they so easy to explain, but so hard to predict? In what ways has the profile of a school shooter changed over the last 25 years, and what has caused those changes? Are school shootings a new phenomenon, or does the media simply make us more aware of them when they happen? The chapter will cover Sandy Hook conspiracy theories, as well as the psychology behind "truthers."

From The Holy Land To Graceland - Gary Vikan 2012-10-01

In his fascinating book, Vikan shows us that, Graceland is a locus sanctus—a holy place—and Elvis is its resident saint, while the hordes of fans that crowd Elvis Presley Boulevard in Memphis are modern-day pilgrims, connected in spirit and practice to their early Christian counterparts, sharing a fascination for icons and iconography, relics, souvenirs, votives, and even a belief in miracles.

This Is Your Captain Speaking - Jon Methven 2012-06-05

A PILOT, A JOURNALIST, AND A SEMEN TRAFFICKER WALK ONTO A PLANE . . . When flight AW2921 crashes into the Hudson River and all 162 passengers survive, it's a Monday morning miracle. What the rapturous public doesn't know: the whole thing was staged as a last-ditch attempt at resurrecting the Air Wanderlust stock price. Captain Hank Swagger piloted the miracle plane into the river. Disgraced TV news anchor Lucy Springer was "luckily" the only reporter on board, and the first to capture the story. Con man Normal Fulk recently faked his own death to escape the consequences of his barely legal career as a celebrity semen trafficker. Toting his last big score—the "John Lennon"—Normal has to leave it behind on the sinking plane or risk being identified and arrested. In the aftermath of the crash and the chaotic week that follows, Lucy, Normal, and Captain Swagger are all about to discover what it means to be at the center of a miracle that is anything but.

Stardom and Celebrity - Sean Redmond 2007-10-02

"Acts as a concise introduction to the study of both contemporary and historical stardom and celebrity. Collecting together in one source companion an easily accessible range of readings surrounding stardom and celebrity culture, this book is a worthwhile addition to any library." - Kerry Gough, Birmingham City University "Absolutely wonderful. The inclusion of seminal works and more recent works makes this a very valuable read." - Beschara Karam, University of South Africa "An engaging and often insightful book." - Media International Australia This book brings together some of the seminal interventions which have structured the development of stardom and celebrity studies, while crucially combining and situating these within the context of new essays which address the contemporary, cross-media and international landscape of today's fame culture. From Max Weber, Walter Benjamin and Roland Barthes to Catherine Lumby, Chris Rojek and Graeme Turner. At the core of the collection is a desire to map out a unique historical trajectory - both in terms of the development of fame, as well as the historical development of the field.

The Other Side of John Lennon - Brian Harker Johnson 2020-09-10

Millions of Beatles fans were stunned when the news broke on December 8, 1980 that John Lennon had been slain in front of his apartment in New York City. He was just 40 years old. In The Other Side of John Lennon journalist Brian Harker Johnson initiates contact with the British songwriter through internationally-known medium Denise Lescano. The result is a spirit biography in which Lennon describes what happened on the night he was shot and what his life is like now on the other side.
