Luces en el camino: filosofía y ciencias sociales en tiempos de desconcierto - Manuel Bermúdez Vázquez 2021-04-13

La sociedad contemporánea se enfrenta, parca en ropajes, al vendaval provocado por diversas crisis simultáneas: crisis sanitaria, crisis económica, crisis política, crisis educativa, crisis climática, etc. En esta situación, corresponde al mundo de la academia, al ámbito erudito e intelectual el tratar de hacerse valer y demostrar la importancia que tiene para afrontar el desafío del futuro. En la biografía de cualquier persona suele haber alguien que ejerce una influencia benéfica especial. Esos individuos actúan como luces en el camino que orientan en las, a menudo, procelosas situaciones vitales que nos toca vivir. Precisamente eso es lo que nos proponemos en este volumen que, a falta de un término más adecuado, podemos calificar como monumental. Pretendemos ser una luz en el camino del lector que se aproxime a los diversos estudios que se acogen en estas páginas. Aquí se encuentran los resultados de investigaciones muy variopintas que tratan, en la medida

de sus posibilidades, de dar respuestas a interrogantes diversos que atañen al quehacer cotidiano, a la forma de entender la vida y la realidad, en definitiva, a la construcción del mundo.

Advances in Laboratory Testing and Modelling of Soils and Shales (ATMSS) - Alessio Ferrari 2017-01-16

In this spirit, the ATMSS International Workshop “Advances in Laboratory Testing & Modelling of Soils and Shales” (Villars-sur-Ollon, Switzerland; 18-20 January 2017) has been organized to promote the exchange of ideas, experience and state of the art among major experts active in the field of experimental testing and modelling of soils and shales. The Workshop has been organized under the auspices of the Technical Committees TC-101 “Laboratory Testing”, TC-106 “Unsaturated Soils” and TC-308 “Energy Geotechnics” of the International Society of Soil Mechanics and Geotechnical Engineering. This volume contains the invited keynote and feature lectures, as well as the papers that have been presented at the Workshop. The topics of the lectures and papers cover a wide range of theoretical and experimental research, including unsaturated behaviour of soils and shales, multiphysical testing of geomaterials, hydro-mechanical behaviour of shales and stiff clays, the geomechanical behaviour of the Opalinus Clay shale, advanced laboratory testing for site characterization and in-situ applications, and soil - structure interactions.

Cooperatives Confront Capitalism - Peter Ranis 2016-08-15

Cooperatives the world over are successfully developing alternative models of decision-making, employment and operation without the existence of managers, executives and hierarchies. Through case studies spanning the US, Latin America and Europe, including valuable new work on the previously neglected cooperative movement in Cuba, Peter Ranis explores how cooperatives have evolved in response to the economic crisis. Going further yet, Ranis makes the novel argument that the constitutionally enshrined principle of 'eminent domain' can in fact be harnessed to create and defend worker cooperatives. Combining the work of key radical theorists, including Marx, Gramsci and Luxemburg, with that of contemporary political economists, such as Block, Piketty and Stiglitz, *Cooperatives Confront Capitalism* provides what is perhaps the most far-reaching analysis yet of the ideas, achievements and wider historical context of the cooperative movement.

Cecilia Valdés or El Angel Hill - Cirilo Villaverde 2005-09-29

Cecilia Valdés is arguably the most important novel of 19th century Cuba. Originally published in New York City in 1882, Cirilo Villaverde's novel has fascinated readers inside and outside Cuba since the late 19th century. In this new English translation, a vast landscape emerges of the moral, political, and sexual depravity caused by slavery and colonialism. Set in the Havana of the 1830s, the novel introduces us to Cecilia, a beautiful light-skinned mulatta, who is being pursued by the son of a Spanish slave trader, named Leonardo. Unbeknownst to the two, they are the children of the same father. Eventually Cecilia gives in to Leonardo's advances; she becomes pregnant and gives birth to a baby girl. When Leonardo, who gets bored with Cecilia after a while, agrees to marry a white upper class woman, Cecilia vows revenge. A mulatto friend and suitor of hers kills Leonardo, and Cecilia is thrown into prison as an accessory to the crime. For the contemporary reader Helen Lane's masterful translation of Cecilia Valdés opens a new window into the intricate problems of race relations in Cuba and the Caribbean. There

are the elite social circles of European and New World Whites, the rich culture of the free people of color, the class to which Cecilia herself belonged, and then the slaves, divided among themselves between those who were born in Africa and those who were born in the New World, and those who worked on the sugar plantation and those who worked in the households of the rich people in Havana. Cecilia Valdés thus presents a vast portrait of sexual, social, and racial oppression, and the lived experience of Spanish colonialism in Cuba.

Strategic Management - Fred R. David 2009

"Both the challenges and opportunities facing organizations of all sizes today are greater than ever. Illegal immigration across the U.S.-Mexico border has reached emergency levels. There is less room than ever for error today in the formulation and implementation of a strategic plan. This textbook provides a systematic effective approach for developing a clear strategic plan. Changes made in this twelfth edition are aimed squarely at illustrating the effect of this new world order on strategic-management theory and practice. ... This twelfth edition provides updated coverage of strategic-management concepts, theory, research, and techniques in the chapters."--Preface.

Construction Extension to the PMBOK® Guide - Project Management Institute 2016-09-01

A Guide to the Project Management Body of Knowledge (PMBOK® Guide) provides generalized project management guidance applicable to most projects most of the time. In order to apply this generalized guidance to construction projects, the Project Management Institute has developed the Construction Extension to the PMBOK® Guide. This Construction Extension provides construction-specific guidance for the project management practitioner for each of the PMBOK® Guide Knowledge Areas, as well as guidance in these additional areas not found in the PMBOK® Guide: •All project resources, rather than just human resources •Project health, safety, security, and environmental management •Project financial management, in addition to cost •Management of claims in construction This edition of the Construction Extension also follows a new structure, discussing the principles in each of the Knowledge Areas rather than discussing the individual processes. This approach broadens the applicability of the Construction Extension by increasing the focus on the "what" and "why" of construction project management. This Construction Extension also includes discussion of emerging trends and developments in the construction industry that affect the application of project management to construction projects.

Building Effective Governments - Marianela Armijo 2015-07-09

Improving public services, using State resources efficiently, and managing State agencies effectively have been ongoing concerns of Latin American and Caribbean (LAC) governments since the beginning of this century. Government officials are now paying closer attention to the results obtained by their administrations. Citizens are now demanding not only universality but also quality in the services that the State provides (e.g., education, healthcare, and legal services). To meet this

growing demand for public sector effectiveness, governments have formulated new laws, created or modified institutions, and implemented innovative management methodologies and instruments. Based on data gathered in 24 countries, this book analyzes the current situation, the progress made, and the challenges still facing the governments of the region in their efforts to achieve more effective public administrations. Public financial management in Latin America - Mario Pessoa 2015-08-24

The efficiency, effectiveness, and transparency of public financial management in Latin America is critical for the supervision of public resources, fiscal stability, and sustainable economic development. In recent years, the countries of Latin America have embraced reforms in public financial management and have made many important advances; however, many challenges remain. This book brings together the knowledge and experiences of IMF and IDB staff and representatives from 16 governments in the region to document these reforms, and examines the experiences and lessons learned. It is a valuable resource for those looking at issues in public financial management.
