100 Days of Sunlight - Abbie

Emmons 2019-08-07

When 16-year-old poetry blogger Tessa Dickinson is involved in a car accident and loses her eyesight for 100 days, she feels like her whole world has been turned upside-down. Terrified that her vision might never return, Tessa feels like she has nothing left to be happy about. But when her grandparents place an ad in the local newspaper looking for a typist to help Tessa continue writing and blogging, an unlikely answer knocks at their door: Weston Ludovico, a boy her age with bright eyes, an optimistic smile...and no legs.

Knowing how angry and afraid Tessa is feeling, Weston thinks he can help her. But he has one condition -- no one can tell Tessa about his disability. And because she can't see him, she treats him with contempt: screaming at him to get out of her house and never come back. But for Weston, it's the most amazing feeling: to be treated like a normal person, not just a sob story. So he comes back. Again and again and again. Tessa spurns Weston's "obnoxious optimism", convinced that he has no idea what she's going through. But Weston knows exactly how she feels and reaches into her darkness to show her that there is more than one way to experience the world. As Tessa grows closer to Weston, she finds it harder and harder to imagine life without him -- and Weston can't imagine life without her. But he still hasn't told her the truth, and when Tessa's sight returns he'll have to make the hardest decision of his life: vanish from Tessa's world...or overcome his fear of being seen. 100 Days of

Sunlight is a poignant and heartfelt novel by author Abbie Emmons. If you like sweet contemporary romance and strong family themes then you'll love this touching story of hope, healing, and getting back up when life knocks you down.

Online Brand Communities -
Francisco J. Martínez-López
2015-12-11

This book presents and analyzes the concept of online brand communities, an emerging and exciting topic in marketing and eCommerce. First, it lays out the foundations like the evolution of the Web and the so-called Social Web, its utility for users and businesses, and the evolution of the marketing mind-set to adapt the Social Web. On this basis, the book then presents a detailed analysis of online brand communities, examining the concept of virtual community with a specific focus on virtual brand communities. In this context the book also explores recent trends related to branding and brand

management. Next, it proposes a classification system for online brand communities, taking into account questions like the motivating factors for consumers to join, participate and stay in a community. The process of value creation in communities is examined from both business and consumer perspectives. The book draws to a close with a brief presentation of the process broadly accepted for the successful development of online brand communities.

Mixed Reality and Gamification for Cultural Heritage - Marinos Ioannides 2017-04-26

This volume on virtual and augmented reality (VR/AR) and gamification for cultural heritage offers an insightful introduction to the theories, development, recent applications and trends of the enabling technologies for mixed reality and gamified interaction in cultural heritage and creative industries in general. It has two main goals: serving as an introductory textbook to train beginning and experienced researchers in the

field of interactive digital cultural heritage, and offering a novel platform for researchers in and across the culturally-related disciplines. To this end, it is divided into two sections following a pedagogical model developed by the focus group of the first EU Marie S. Curie Fellowship Initial Training Network on Digital Cultural Heritage (ITN-DCH): Section I describes recent advances in mixed reality enabling technologies, while section II presents the latest findings on interaction with 3D tangible and intangible digital cultural heritage. The sections include selected contributions from some of the most respected scholars, researchers and professionals in the fields of VR/AR, gamification, and digital heritage. This book is intended for all heritage professionals, researchers, lecturers and students who wish to explore the latest mixed reality and gamification technologies in the context of cultural heritage and creative industries. It pursues a pedagogic approach

based on trainings, conferences, workshops and summer schools that the ITN-DCH fellows have been following in order to learn how to design next-generation virtual heritage applications, systems and services.

Yoga Mind, Body & Spirit -
Donna Farhi 2011-04-01

The author of Yoga Journal's most-read column presents the first holistic guide to yoga. A user-friendly guide illustrated with 240 two-color photographs and illustrations, *Yoga Mind, Body & Spirit* sets forth the tenets of this gentle yet rigorous exercise as no other book has. Integrating the teachings of every tradition, internationally renowned yoga instructor Donna Farhi reveals how yoga enhances the connections between the mind, body, and spirit. She outlines the seven simple movement principles that underlie all human motion and provides exercises to help readers understand how they can achieve all yoga postures. She also discusses the ten ethical precepts that are the foundation of all yoga teachings and explains how to incorporate them into a spiritually and emotionally rewarding inner practice. At

the heart of Yoga Mind, Body & Spirit are more than seventy-five yoga asanas or postures. Each is one pictured and described in detail, and they are arranged into related groups--including standing postures, sitting postures, arm balances, and breathing practices--or easy reference. A selection of yoga practices of varying lengths and levels of difficulty provides challenges and inspiration for beginner, intermediate, and advanced students. A huge resurgence of interest in yoga is sweeping the country. With its broad scope and holistic approach, *Yoga Mind, Body & Spirit* is the ideal book for today's mainstream audience.

Erik Bulatov - Erik Bulatov
2016-09-27

Since the beginning of his career in the 1950s, Russian artist Erik Bulatov (born 1933) has investigated the potential of painting as social commentary. A founder of the school of Moscow Conceptualism alongside Ilya Kabakov, Collective Actions and Komar & Melamid, among others, Bulatov developed what has been described as conceptual painting, using text and image to explore spatial preoccupations that mirror his understanding of social relations. This volume follows the making of the artist's largest work to date: a 30-foot-high monumental diptych made in his trademark graphic style, reminiscent of the poet Vladimir Mayakovsky's advertising posters from the 1920s. Introducing an innovative assessment of

Bulatov's oeuvre, this richly illustrated book includes an essay by Snejana Krasteva exploring his use of monumental scale, an interview by Hans Ulrich Obrist and several texts by the artist which are translated to English for the first time.

Piano - James Barron
2007-04-01

An alluring exploration of the people and the legendary craftsmanship behind a single Steinway piano Like no other instrument, a grand piano melds engineering feats with the magical sounds of great music: the thunder of a full-throated bass, the bright, delicate trill of the upper treble. Alone among the big piano companies, Steinway still crafts all of its pianos largely by hand, imbuing each one with the promise and burden of its brand. In this captivating narrative, James Barron of The New York Times tells the story of one Steinway piano, from

raw lumber to finished instrument. Barron follows that brand-new piano-known by its number, K0862-on its eleven-month journey through the Steinway factory, where time-honored manufacturing methods vie with modern-day industrial efficiency. He looks over the shoulders of men and women-some second- and third-generation employees, some recently arrived immigrants-who transform wood and steel into a concert grand. Together, they carry on the traditions begun more than 150 years ago by the immigrants who founded Steinway & Sons-a family that soared to prominence in the music world and, for a while, in New York City's political and economic life. Barron also explores the art and science of developing a piano's timbre and character before its first performance, when the essential question will be answered: Does K0862 live up to the Steinway legend? From start to finish, Piano will charm and enlighten music lovers.

echelons of Scotland's social and political leaders. In the autumn of 1707, old enemies from the Highlands to the Borders are finding common ground as they join to protest the new Union with England. At the same time, the French are preparing to launch an invasion to bring the young exiled Jacobite king back to Scotland to reclaim his throne, and in Edinburgh the streets are filled with discontent and danger. Queen Anne's commissioners, seeking to calm the situation, have begun paying out money sent up from London to settle the losses and wages owed to those Scots who took part in the disastrous Darien expedition eight years earlier—an ill-fated venture that left Scotland all but bankrupt. When the young widow of a Darien sailor comes forward to collect her husband's wages, her claim is challenged. One of the men assigned to investigate has only days to decide if she's honest, or if his own feelings are blinding him to the truth. Set at the cusp of the

eighteenth century, in the midst of the Jacobite Rebellion, *The Vanished Days* is a brilliantly told story of espionage, loyalties divided, boundless courage and enduring love.

This volume of the IARC Monographs provides an assessment of the carcinogenicity of 18 chemicals present in industrial and consumer products or food (natural constituents, contaminants, or flavorings) or occurring as water-chlorination by-products. The compounds evaluated include the widely used plasticizer di(2-ethylhexyl) phthalate and the food contaminant 4-methylimidazole. In view of the limited agent-specific information available from epidemiological studies, the IARC Monographs Working Group relied mainly on carcinogenicity bioassays, and mechanistic and other relevant data to evaluate the carcinogenic hazards to humans exposed to these agents.

Thank You, Mr. Nixon - Gish Jen 2022-02-01

The acclaimed, award-winning author of *The Resisters* takes measure of the fifty years since the opening of China and its unexpected effects on the lives of ordinary people. It is a

unique book that only Jen could write—a story collection accruing the power of a novel as it proceeds—a work that Cynthia Ozick has called “an art beyond art. It is life itself.” Beginning with a cheery letter penned by a Chinese girl in heaven to “poor Mr. Nixon” in hell, Gish Jen embarks on a fictional journey through U.S.-China relations, capturing the excitement of a world on the brink of tectonic change. Opal Chen reunites with her Chinese sisters after forty years; newly cosmopolitan Lulu Koo wonders why Americans “like to walk around in the woods with the mosquitoes”; Hong Kong parents go to extreme lengths to reestablish contact with their “number-one daughter” in New York; and Betty Koo, brought up on “no politics, just make money,” finds she must reassess her mother’s philosophy. With their profound compassion and equally profound humor, these eleven linked stories trace the intimate ways in which humans make and are made by history, capturing an extraordinary era

How to Be a Muslim - Haroon Moghul 2017-06-06

A young Muslim leader's memoir of his struggles to forge an American Muslim identity Haroon Moghul was thrust into the spotlight after 9/11, becoming an undergraduate leader at New York University's Islamic Center forced into appearances everywhere: on TV, before interfaith audiences, in print. Moghul was becoming a prominent voice for American Muslims even as he struggled with his relationship to Islam. In high school he was barely a believer and entirely convinced he was going to hell. He sometimes drank. He didn't

pray regularly. All he wanted was a girlfriend. But as he discovered, it wasn't so easy to leave religion behind. To be true to himself, he needed to forge a unique American Muslim identity that reflected his beliefs and personality.

How to Be a Muslim reveals a young man coping with the crushing pressure of a world that fears Muslims, struggling with his faith and searching for intellectual forebears, and suffering the onset of bipolar disorder. This is the story of the second-generation immigrant, of what it's like to lose yourself between cultures and how to pick up the pieces.

Amusing Ourselves to Death - Neil Postman 2005-12-27

What happens when media and politics become forms of entertainment? As our world begins to look more and more like Orwell's 1984, Neil's Postman's essential guide to the modern media is more relevant than ever. CNN Originally published in 1985, Neil Postman's groundbreaking polemic about the corrosive effects of television on our politics and public discourse has been hailed as a twenty-first-century book published in the twentieth century. Now, with television joined by more sophisticated electronic media—from the Internet to cell phones to DVDs—it has taken on even greater significance. Amusing Ourselves to Death is a prophetic look at what happens when politics, journalism, education, and even religion become subject to the demands of entertainment. It is also a blueprint for regaining control of our media, so that they can serve our highest goals. "A brilliant, powerful, and important book. This is an indictment that Postman has laid down and, so far as I can see, an irrefutable one."

British or American English? - John Algeo

2006-08-10

Speakers of British and American English display some striking differences in their use of grammar. In this detailed survey, John Algeo considers questions such as: •Who lives on a street, and who lives in a street? •Who takes a bath, and who has a bath? •Who says Neither do I, and who says Nor do I? •After 'thank you', who says Not at all and who says You're welcome? •Whose team

are on the ball, and whose team isn't? Containing extensive quotations from real-life English on both sides of the Atlantic, collected over the past twenty years, this is a clear and highly organized guide to the differences - and the similarities - between the grammar of British and American speakers. Written for those with no prior knowledge of linguistics, it shows how these grammatical differences are linked mainly to particular words, and provides an accessible account of contemporary English in use. Decolonizing Methodologies -

Linda Tuhiwai Smith

2016-03-15

'A landmark in the process of decolonizing imperial Western knowledge.' Walter D. Mignolo, Duke University To the colonized, the term 'research' is conflated with European colonialism; the ways in which academic research has been implicated in the throes of imperialism remains a painful memory. This essential volume explores intersections of

imperialism and research - specifically, the ways in which imperialism is embedded in disciplines of knowledge and tradition as 'regimes of truth.' Concepts such as 'discovery' and 'claiming' are discussed and an argument presented that the decolonization of research methods will help to reclaim control over indigenous ways of knowing and being. Now in its eagerly awaited second edition, this bestselling book has been substantially revised, with new case-studies and examples and important additions on new indigenous literature, the role of research in indigenous struggles for social justice, which brings this essential volume urgently up-to-date.
