Rainbow Green Live-Food Cuisine - Gabriel Cousens, M.D. 2011-03-08

Medical researchers have found that a high-fat, high-sugar diet, combined with environmental pollutants and stress, can lead to a buildup of toxins in the body collectively known as chronic degenerative disease. Here holistic physician Gabriel Cousens addresses the dangers of foods that have

been genetically modified, treated with pesticides, microwaved, and irradiated—and presents an alternative diet of whole, natural, organic, and raw foods that can reverse chronic disease and restore vitality. Both a guide to natural health and a cookbook, *Rainbow Green Live-Food Cuisine* features over 250 revolutionary vegan recipes from chefs at the Tree of Life Cafe, from Buttery Butternut Porridge to Raw-violis to Carob Coconut Cream Eclairs. Combining modern research on metabolism, ecological consciousness, and a rainbow of live foods, Dr. Cousens dishes up comprehensive, practical, and delectable solutions to the woes of the Western diet. *The 21-day Sugar Detox* - Diane Sanfilippo 2013-10-29 **SUGAR IS TAKING OVER OUR LIVES.** But why? And is it only those sweet, refined white crystals that are causing us problems, or could there be more to the story? Let's be honest: The problem isn't just sugar itself. It's the refined,

nutrient-poor carbohydrates that carry tons of calories but no real nutrition. In our world, these are the easiest foods to grab on the go, but they leave us fat, sick, tired, and downright unhappy. The effect that sugar, "hidden" carbs, and refined, processed foods have on our bodies goes far beyond our waistlines. We can't focus, we can't sleep, we have irrational mid-afternoon cravings, and we can't even make it through the day without wanting—or needing—to prop up our energy levels with caffeine or even more sugar! What can we do to break free from this cycle? The 21-Day Sugar Detox is here to help. The 21-Day Sugar Detox is a clear-cut, effective, whole-foods-based nutrition action plan that will reset your body and your habits! Tens of thousands of people have already used this groundbreaking guide to shatter the vicious sugar stronghold. Now it's your turn! Use the easy-to-follow meal plans and more than 90 simple recipes in this book to

bust a lifetime of sugar and carb cravings in just three weeks. Three levels of the program make it approachable for anyone, whether you're starting from scratch or from a gluten-free, grain-free, and/or Paleo/primal lifestyle. The 21-Day Sugar Detox even includes special modifications for athletes (endurance, CrossFit, HIIT-style, and beyond), pregnant/nursing moms, pescetarians, and people with autoimmune conditions. What you'll experience on this program will be different from a lot of other "diet" programs out there that promote extremely restricted eating; encourage you to consume only shakes, juices, or smoothies; or rely heavily on supplements and very-low-calorie or very-low-fat diets to ensure success. The goal of any detox program should be to support your body in naturally cleansing itself of substances that create negative health effects—and that's exactly what The 21-Day Sugar Detox does. By focusing on quality protein, healthy fats, and good carbs, this program

will help you change not only the foods you eat, but also your habits around food, and even the way your palate reacts to sweet foods. You'll likely complete the program and continue eating this way much of the time thereafter because you'll feel so amazing. After changing your everyday eating habits, you will begin to gain a new understanding of how food works in your body—and just how much nutrition affects your entire life. There's no reason to wait!

The Plant Paradox - Dr.

Steven R. Gundry, MD

2017-04-25

"I read this book... it worked.

My autoimmune disease is gone and I'm 37 pounds lighter in my pleather." --Kelly Clarkson

Most of us have heard of gluten—a protein found in wheat that causes widespread inflammation in the body.

Americans spend billions of dollars on gluten-free diets in an effort to protect their health. But what if we've been missing the root of the problem? In *The Plant Paradox*, renowned cardiologist Dr. Steven Gundry reveals that gluten is just one variety of a common, and highly toxic, plant-based protein called

lectin. Lectins are found not only in grains like wheat but also in the "gluten-free" foods most of us commonly regard as healthy, including many fruits, vegetables, nuts, beans, and conventional dairy products.

These proteins, which are found in the seeds, grains, skins, rinds, and leaves of plants, are designed by nature to protect them from predators (including humans). Once ingested, they incite a kind of chemical warfare in our bodies, causing inflammatory reactions that can lead to weight gain and serious health conditions. At his waitlist-only clinics in California, Dr. Gundry has successfully treated tens of thousands of patients suffering from autoimmune disorders, diabetes, leaky gut syndrome, heart disease, and neurodegenerative diseases with a protocol that detoxes the cells, repairs the gut, and nourishes the body. Now, in *The Plant Paradox*, he shares this clinically proven program with readers around the world. The simple (and daunting) fact is, lectins are everywhere.

Thankfully, Dr. Gundry offers simple hacks we easily can employ to avoid them, including: Peel your veggies. Most of the lectins are contained in the skin and seeds of plants; simply peeling and de-seeding vegetables (like tomatoes and peppers) reduces their lectin content. Shop for fruit in season. Fruit contain fewer lectins when ripe, so eating apples, berries, and other lectin-containing fruits at the peak of ripeness helps minimize your lectin consumption. Swap your brown rice for white. Whole grains and seeds with hard outer coatings are designed by nature to cause digestive distress—and are full of lectins. With a full list of lectin-containing foods and simple substitutes for each, a step-by-step detox and eating plan, and delicious lectin-free recipes, *The Plant Paradox* illuminates the hidden dangers lurking in your salad bowl—and shows you how to eat whole foods in a whole new way.

#1 NEW YORK TIMES
BESTSELLER • The game-changing author of *Tribe of Mentors* teaches you how to reach your peak physical potential with minimum effort. "A practical crash course in how to reinvent yourself."—Kevin Kelly, *Wired*
Is it possible to reach your

genetic potential in 6 months? Sleep 2 hours per day and perform better than on 8 hours? Lose more fat than a marathoner by bingeing? Indeed, and much more. The 4-Hour Body is the result of an obsessive quest, spanning more than a decade, to hack the human body using data science. You need immediate results that compel you to continue. That's exactly what *The 4-Hour Body* delivers. [New England Farmer - 1825](#)

[The Candida Cure](#) - Ann Boroch
2018-02-06

Foreword by David Perlmutter,
MD, author of *Grain Brain* The

cult-classic health book, now revised and updated with a quick start cleanse, easy recipes, and more. It's not news that Americans are sicker than ever. Seventy million of us suffer from digestive problems like acid reflux, irritable bowel syndrome (IBS), or gastro esophageal reflux disorder (GERD). Another forty million have been diagnosed with anxiety and/or depression and a staggering fifty million Americans live with an autoimmune disease. But what is newsworthy is that all of these conditions share a common thread you've probably never heard of: candida. "Candida" is the term for a group of yeast organisms that have lived in our digestive tract for millennia, in harmony with the other thousands of bacteria, viruses, and archaea that make up our microbiome. But due to poor diets, processed foods, overuse of antibiotics, environmental toxins, and increased stress, our microbiome has been under steady and constant attack for decades. Yeast are of

a heartier stock than bacterial microbes, and as bacteria die off, yeast begins to overgrow in the digestive tract, a condition known as candidiasis. Mild and moderate cases of candidiasis present with fatigue, IBS, eczema, depression, brain fog, migraines, and weight gain. Severe cases allow the afflicted to develop autoimmune disease (such as Multiple Sclerosis), cancer, and Alzheimer's. Ann Boroch's self-published book, *The Candida Cure*, has been the #1 resource in candida treatment since 2008. Her program—which she used to heal herself from a life-threatening autoimmune disorder—has stood the test of time, and has become a life-changing resource for more than 65,000 people. Now, in this revised edition, readers have even more tools, with updated information and case histories, a quick start cleanse, and all-new recipes and eating plans.

Good and Cheap - Leanne Brown
2015-07-14

A perfect and irresistible idea: A cookbook filled with delicious, healthful recipes created for everyone on a tight budget. While studying food policy as a master's candidate at NYU, Leanne Brown asked a simple yet critical question: How well can a person eat on the \$4 a day given by SNAP, the U.S. government's Supplemental Nutrition Assistance Program informally known as food stamps? The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods, Ms. Brown

gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza dough, flour tortillas—and saucy extras that make everything taste better, like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for Good and Cheap is already proving itself. The author launched a Kickstarter campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video and donated \$145,000, and national media are paying attention. Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to the campaign; Francis Lam, who called it “Terrific!”; and Michael Pollan, who cited it as a “cool kickstarter.” In the same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, Good and Cheap is poised to become a cookbook that every food lover with a conscience will embrace.

Fresh Energy Cookbook -

Natalia Rose 2012-11-06

With the publication of The Raw Food Detox Diet, Natalia Rose popularized the concept of “detox dieting.” Her principles for cleansing and revitalizing the body by emphasizing living foods and proper food combinations caught the attention of Doris Choi, personal chef and caterer to New York’s

cognoscenti—and inspired a whole new culinary approach. Rose and Choi teamed up to create The Rose Program Culinary Institute and Detox Delivers, an innovative cooking school and food delivery service for clients nationwide. Now, with The Fresh Energy Cookbook, they unveil more than 150 of Chef Doris’s most coveted recipes, ideal for dieters and home cooks of all stripes. Lovingly compiled and

gorgeously photographed, it covers essential kitchenware, prep skills, pantry items—and recipes for everything from juices and smoothies to warm savory salads, satisfying entrees, and guiltless desserts—all delicious and stunningly simple to prepare. Contrary to popular opinion, true detoxing is not about drinking lemon water and starving oneself for weeks at a time; it’s about eating whole, fresh, high-vibration foods as nature intended us to, every day. While this cookbook features many vegan and raw dishes, it offers a range of amazingly healthy recipes, some of which include goat cheese, fish, and gently cooked starches and vegetables. Among the mouthwatering salads, soups, appetizers, entrees, and desserts are: Daikon Summer Rolls with Tomato Yuzu Dip Amalfi Salad Cauliflower Pizza with Matbucha Sauce Quick Ratatouille Fennel-Stuffed Salmon Butternut Squash Fries Chocolate Banana Ice Cream Lemon and Yuzu Granita
