Ding Hao - Cornelius, Wanda

This history book celebrates a near-forgotten band of gallant American airmen, led by Claire Lee Chennault, who served in the midst of a

strange land at a time of great turmoil. They arrived in China, not as conquerors, but as codefenders, appreciated by the most humble and grateful Chinese who would smile to them and in many cases utter the only mutually recognizable words of communication: 'Ding Hao, ' meaning 'It is good.'

The Gendered Motorcycle - Esperanza Miyake 2018-06-14

What happens to gender at 120mph? Are Harley-Davidsons more masculine than Yamahas? The Gendered Motorcycle answers such questions through a critical examination of motorcycles in film, advertising and television. Whilst bikers and biker cultures have been explored previously, the motorcycle itself has remained largely under-theorised, especially in relation to gender. Esperanza Miyake reveals how representations of motorcycles can produce different gendered bodies, identities, spaces and practices. This interdisciplinary book offers new and critical ways to think about gender and motorcycles, and will interest scholars and students of gender, technology and visual cultures, as well as motorcycle industry practitioners and motorcycle enthusiasts.

Davin Jamison is already burned out when he receives an honorable discharge from the United States Army. After he lands a job in Manhattan, Kansas, his life seems to be on track until his

boss lays him off. As a father and husband, Davin already feels the pressure as the provider. But when his wife continually reminds him of his failed military career, an angry David abandons his family for a new beginning in Arkansas. Anxious to see Kansas in his rear mirror, Davin pushes his motorcycle to its limits. After he speeds past a trooper, the officer pursues him on a death-defying chase into Topeka that grabs news coverage and the attention of two men who bail him out of jail. Donald Walker and Richard Sharpe have been searching for the right driver to represent them in the Transcontinental American Race. As an alternative to prison, they invite Davin to participate in a coast-to-coast race with sixteen others that include an Englishman, an ex-marine, and a beautiful Porsche test driver. As the race begins, Davin soon learns that speed limits are simply suggestions. In this fast-paced tale, a young man leaves everything behind to learn what he is truly made of during a transcontinental race through America.

Royal Enfield - Mick Walker 2003-08-31

The firm of Royal Enfield was one of the best-known names of the British motorcycle industry, but curiously its products have never received the adulation bestowed on the products of Triumph, BSA and others. In this complete history, top motorcycle authority Mick Walker shows that there was, in fact, much for the Redditch-based firm to be proud of, in the shape of good-looking, innovative machines that inspired a generation. And what other company can boast a model still in popular production sixty years after its launch? Topics covered include: , Complete history of Royal Enfield, including Enfield India, Numerous specifications, Royal Enfields in competition About the Author: Mick Walker started his own business, Mick Walker Motorcycles, in 1969 and was a leading race sponsor during the 1970s. In 1994 he formed Mick Walker Racing, following the death of his son Gary at Brands Hatch that year. The team has achieved no fewer than five British Championship wins.

Advances in the Human Side of Service Engineering - Jim Spohrer 2020-07-09

This book reports on cutting-edge research and best practices in developing innovative service systems. It covers issues concerning the suitability of a given system for human use, human services, and excellent human experiences. It explores a wide range of ways in which human factors in engineering, ergonomics, human-computer interaction (HCI), cognitive engineering, and many other disciplines can contribute to the design and management of service systems. It considers aspects related to cost effectiveness, ethics, and privacy, among others, and covers applications in many areas, from healthcare to education, transportation, and the economy. Based on the AHFE 2020 Virtual Conference on the Human Side of Service Engineering, held on July 16-20, 2020, the book provides readers with a comprehensive overview of current research and future challenges in the field of service engineering, together with practical insights into the development of innovative services for various kinds of organizations.
