Access to Knowledge in the Age of Intellectual Property - Gaëlle Krikorian 2010

A movement emerges to challenge the tightening of intellectual property law around the world.

IPC Green Inventory - World Intellectual Property Organization 2017

This brochure explains how the IPC Green Inventory can give direct access to the latest patent information about technologies in a number of fields including alternative energy production, energy conservation, transportation, waste management, and agriculture and forestry

World Intellectual Property Indicators 2019 - World Intellectual Property Organization 2019-10-15

This authoritative report analyzes IP activity around the globe. Drawing on 2018 filing, registration and renewals statistics from national and regional IP offices and WIPO, it covers patents, utility models, trademarks, industrial designs, microorganisms, plant variety protection and geographical indications. The report also draws on survey data and industry sources to give a picture of activity in the publishing industry.

Handbook of Blockchain Law - Matthias Artzt 2020-07-16

Blockchain has become attractive to companies and governments because it promises to solve the age-old problem of mutability in transactions - that is, it makes falsification and recalculation impossible

once a transaction has been committed to the technology. However, the perceived complexity of implementing Blockchain calls for an in-depth overview of its key features and functionalities, specifically in a legal context. The systematic and comprehensive approach set forth in this indispensable book, including coverage of existing relevant law in various jurisdictions and practical guidance on how to tackle legal issues raised by the use of Blockchain, ensures a one-stop-shop reference book for anyone considering Blockchain-based solutions or rendering advice with respect to them. Within a clear structure by fields of law allowing for a systematic approach, each contributor - all of them are practitioners experienced with Blockchain projects within their respective areas of expertise - elucidates the implications of Blockchain technology and related legal issues under such headings as the following: technical explanation of Blockchain technology; contract law; regulatory issues and existing regulation in a variety of jurisdictions; data protection and privacy; capital markets; information security; patents and other intellectual property considerations; and antitrust law. Keeping the legal questions and concepts sufficiently generic so that lawyers can benefit from the handbook irrespective of their jurisdiction and legal background, the authors cover such specific characteristics of Blockchain implementation as so-called smart contracts, tokenization,

distributed ledger technology, digital securities, recognition of code as law, data privacy challenges and Blockchain joint ventures. Because Blockchain is a relatively new technology still in process and raises a multitude of legal questions, this well-balanced introduction - at a depth that allows non-IT experts to understand the groundwork for legal assessments - provides a solid basis for organizations and their legal advisors in identifying and resolving Blockchain-related issues. Legal practitioners, in-house lawyers, IT professionals and advisors, consultancy firms, Blockchain associations and legal scholars will welcome this highly informative and practical book.

Standard-Setting at UNESCO - Abdulqawi A. Yusuf 2007-10-15

Standard-setting represents one of the main constitutional functions of UNESCO and an important tool for realizing the goals for which the Organization was created. In addition to conventions and recommendations, the declarations adopted by the General Conference promulgate principles and norms intended to inspire the action of Member States in specific fields of activity. This first of a two-volume work on Standard-setting in UNESCO contains the essays presented at a symposium held on the occasion of its sixtieth anniversary. Topics addressed in Normative Action in Education, Science and Culture include methods of elaboration and implementation; constitutional objectives and legal commitments; international collaboration; and impact. Co-publication with the UNESCO.

Guide to the Berne Convention for the Protection of Literary and Artistic Works - World Intellectual Property Organization 1978

The aim of this Guide is to present, as simply and clearly as possible, the contents of the Berne Convention and to provide a number of explanations as to its nature, aims and scope.

The Cambridge Handbook of International and Comparative Trademark Law - Irene Calboli 2020-09-30

Trade in goods and services has historically resisted territorial confinement, but trademark protection remains territorial, albeit within an increasingly important framework of multilateral treaties. Trademark law therefore demands that practitioners, policy-makers and academics

understand principles of international and comparative law. This handbook assists in that endeavour, with chapters describing and critically analyzing international and regional frameworks, and providing comparative perspectives on the substantive issues in trademark law and related fields, such as geographic indications, advertising law, and domain names. Chapters contrast common law and civil law approaches while focusing on the US and EU trademark systems in light of the role these systems have played in the development of trademark laws. Additionally, this handbook covers other jurisdictions, both common law and civil law, on the Asia-Pacific, African, and South American continents. This work should be read by anyone seeking a better understanding of trademark law around the world.

Intellectual Property on the Internet - World Intellectual Property Organization 2002

Report addresses the far-reaching impact that digital technologies-- the Internet in particular-- have had on intellectual property (IP) and the international IP system.

International Organizations in General Universal International Organizations and Cooperation - Rudolf Bernhardt 2014-05-12

Encyclopedia of Public International Law, 5: International Organizations in General, Universal International Organizations, and Cooperation focuses on international governmental organizations and international cooperation of a universal nature. The publication first elaborates on bank for international settlements, Bretton Woods Conference (1944), Customs Cooperation Council, Dumbarton Oaks Conference (1944), financial institutions, and food and agriculture organization of the United Nations. The text then examines industrial property and international protection, Intergovernmental Committee for Migration, international administrative unions, and the International Air Transport Association. Discussions focus on traffic conferences, international protection of intellectual property, historical evolution of legal rules, special legal problem, and evaluation. The manuscript takes a look at the World Intellectual Property Organization, World Health Organization, World Food Council, voting rules in international conferences and

organizations, and the Vienna Convention on the Representation of States in their Relations with International Organizations of a Universal Character. Topics include methods of voting, membership, decision-making, foundation and legal basis, functioning, and financing. The text is a valuable source of information for researchers interested in international governmental organizations and international cooperation.
Practising Virtue - David D. Caron 2015

International arbitration has developed into a global system of adjudication, dealing with disputes arising from a variety of legal relationships: between states, between private commercial actors, and between private and public entities. It operates to a large extent according to its own rules and dynamics - a transnational justice system rather independent of domestic and international law. In response to its growing importance and use by disputing parties, international arbitration has become increasingly institutionalized, professionalized, and judicialized. At the same time, it has gained significance beyond specific disputes and indeed contributes to the shaping of law. Arbitrators have therefore become not only adjudicators, but transnational lawmakers. This has raised concerns over the legitimacy of international arbitration. *Practising Virtue* looks at international arbitration from the 'inside', with an emphasis on its transnational character. Instead of concentrating on the national and international law governing international arbitration, it focuses on those who practice international arbitration, in order to understand how it actually works, what its sources of authority are, and what demands of legitimacy it must meet. Putting those who practice arbitration into the centre of the system of international arbitration allows us to appreciate the way in which they contribute to the development of the law they apply. This book invites eminent arbitrators to reflect on the actual practice of international arbitration, and its contribution to the transnational justice system.

WIPO Intellectual Property Handbook - World Intellectual Property Organization 2004

This is a general reference work on all aspects of intellectual property,

including international treaties and conventions, analyses of all fields of intellectual property, its administration, enforcement and teaching, technological and legal developments, and WIPO's work in its Member States. It covers issues including electronic commerce, biotechnology, traditional knowledge and management of copyright and related rights and WIPO's vision and approaches to meet new challenges with a widening circle of partners. Can be used as a key reference work by creators, innovators, intellectual property lawyers, government officials, university teachers and students.

Geographical Indications at the Crossroads of Trade, Development, and Culture - Irene Calboli 2017-06-16

This volume focuses on the procedures for determining the geographical indicator labels for globally traded goods in the Asia-Pacific region. The book is also available as Open Access.

The Geneva Act (1999) of the Hague Agreement Concerning the International Registration of Industrial Designs: Main Innovations Compared with the Present System Provided for in the 1934 and 1960 Acts of the Agreement - World Intellectual Property Organization 2015-03-09

This publication exposes the main innovations stated in the Geneva Act (1999) of the Hague Agreement which are, among others, to extend the Hague system to new members and to preserve the fundamental simplicity of the Hague system and make it more attractive to applicants.
World Intellectual Property Indicators 2021 - World Intellectual Property Organization 2021-11-03

This authoritative report analyzes IP activity around the globe. Drawing on 2020 filing, registration and renewals statistics from national and regional IP offices and WIPO, it covers patents, utility models, trademarks, industrial designs, microorganisms, plant variety protection and geographical indications. The report also draws on survey data and industry sources to give a picture of activity in the publishing industry.

WIPO Program and Budget - World Intellectual Property Organization 2018-06-07

The Program and Budget is a defining document for the Organization. It

establishes the results that Member States wish to see achieved by the Organization over the coming biennium and authorizes the programs and resources necessary for the realization for those results.

The Hague System for the International Registration of Industrial Designs - World Intellectual Property Organization 2019-03-29

An overview of the Hague System explaining who can use it, how the registration process works and how it may benefit users.

Brief History of the First 25 Years of the World Intellectual Property Organization - Arpad Bogsch 1992

In order to place the 25 years in a historical context, the essay does, exceptionally, deal also with pre-1967 events and with post-1992 possibilities.

Documenting Traditional Knowledge - A Toolkit - World Intellectual Property Organization 2017-12-08

There is growing interest in documenting the wealth of traditional knowledge (TK) that has been developed by indigenous peoples and local communities around the world. But documenting TK can raise important issues, especially as regards intellectual property. This Toolkit presents a range of easy-to-use checklists and other resources to help ensure that anyone considering a documentation project can address those issues effectively.

World Intellectual Property Indicators 2020 - World Intellectual Property Organization 2020-12-07

This authoritative report analyzes IP activity around the globe. Drawing on 2019 filing, registration and renewals statistics from national and regional IP offices and WIPO, it covers patents, utility models, trademarks, industrial designs, microorganisms, plant variety protection and geographical indications. The report also draws on survey data and industry sources to give a picture of activity in the publishing industry.

Rules of Practice in Patent Cases - United States. Patent and Trademark Office 1983

A Guide to the Main WIPO Services - World Intellectual Property Organization 2019-11-15

The World Intellectual Property Organization offers a wide range of global IP services. They provide a highly efficient, fast and cost-effective means of helping innovators and creators - both corporate and individual - protect their inventions, trademarks and designs in multiple countries, and also resolve their IP disputes, including those involving domain names. This brochure offers a brief overview of these global services.

Summaries of Conventions, Treaties and Agreements - 2011

Research Handbook on the World Intellectual Property Organization - Sam Ricketson 2020-08-28

2020 marks the 50th year of the coming into force of the World Intellectual Property Organization (WIPO) Convention 1967 and the formal establishment of WIPO. This unique and wide-ranging Research Handbook brings together eminent scholars and experts who assess WIPO's role and programmes during its first half-century, as well as discussing the challenges facing the organization as it enters its second.

The New Frontiers of Fashion Law - Rossella Esther Cerchia 2021-01-13

Fashion law encompasses a wide variety of issues that concern an article of clothing or a fashion accessory, starting from the moment they are designed and following them through distribution and marketing phases, all the way until they reach the end-user. Contract law, intellectual property, company law, tax law, international trade, and customs law are of fundamental importance in defining this new field of law that is gradually taking shape. This volume focuses on the new frontiers of fashion law, taking into account the various fields that have recently emerged as being of great interest for the entire fashion world: from sustainable fashion to wearable technologies, from new remedies to cultural appropriation to the regulation of model weight, from advertising law on the digital market to the impact of new technologies on product distribution. The purpose is to stimulate discussion on contemporary problems that have the potential to define new boundaries of fashion law, such as the impact of the heightened ethical sensitivity of consumers (who increasingly require effective solutions), that a

comparative law perspective renders more interesting. The volume seeks to sketch out the new legal fields in which the fashion industry is getting involved, identifying the new boundaries of fashion law that existing literature has not dealt with in a comprehensive manner.

The Geneva Act (1999) of the Hague Agreement Concerning the International Registration of Industrial Designs - William T. Fryer 2005-01-01

The Hague Agreement has provided international protection for industrial designs since 1925. The latest of several revisions, agreed upon at Geneva in 1999, is operational as of April 1, 2004, under the administration of the World Intellectual Property Organization (WIPO). The global protection of industrial designs, accommodating all forms of national protection systems, will be based on this treaty. This in-depth analysis by William T. Fryer, III, a well-known Professor of Law and patent attorney who participated [and participant] in the meetings and diplomatic conference that led up to the 1999 Act (as well as in subsequent user meetings), is unlikely to be superseded. It presents a detailed drafting history and expert analysis, as well as incomparable strategic guidance for attorneys, businesses, and governments in the implementation of the Act's provisions. Readers can expect all of the following and more: an overall understanding of how the 1999 Act operates to amend and update the Hague Agreement; expert analysis of the Act's key features; detailed exploration of the Act's drafting history; strategic insights into using the Act's provisions to protect industrial designs; guidance for governments considering adherence to the Act; and a source book for the main treaty documents. The book will be of inestimable value to lawyers worldwide working in intellectual property protection, as well as to industrial designers, businesses, and government officials in trade policy. It is an essential addition to all law libraries.

Property Law in a Globalizing World - Amnon Lehavi 2019-01-17
Why property law needs globalization strategies -- Local to global : an institutional analysis -- Land -- Tangible goods, monetary claims, investment securities -- Intellectual property, data, and digital assets --

Security interests and proprietary priorities in insolvency
The Enforcement of Intellectual Property Rights: A Case Book - L.T.C. Harms 2012-12

With this publication, WIPO and the author aim at making available for judges, lawyers and law enforcement officials a valuable tool for the handling of intellectual property cases. To that effect, the case book uses carefully selected court decisions drawn from various countries with either civil or common law traditions. The extracts from the decisions and accompanying comments illustrate the different areas of intellectual property law, with an emphasis on matters that typically arise in connection with the enforcement of intellectual property rights in civil as well as criminal proceedings.

The First Twenty Five Years of the World Intellectual Property Organization (1967-1992) - World Intellectual Property Organization 1992

The Convention establishing the World Intellectual Property Organization was signed in Stockholm on July 14, 1967. This book has been written to commemorate the 25th anniversary of that event.
The Constitution of the Republic of the Gambia, 1997 (as Amended to 2018). - 2018

Guide to Foreign and International Legal Citations - 2006

"Formerly known as the International Citation Manual"--p. xv.

Handbook of Deep Trade Agreements - Aaditya Mattoo 2020-09-23
Deep trade agreements (DTAs) cover not just trade but additional policy areas, such as international flows of investment and labor and the protection of intellectual property rights and the environment. Their goal is integration beyond trade or deep integration. These agreements matter for economic development. Their rules influence how countries (and hence, the people and firms that live and operate within them) transact, invest, work, and ultimately, develop. Trade and investment regimes determine the extent of economic integration, competition rules affect economic efficiency, intellectual property rights matter for innovation, and environmental and labor rules contribute to

environmental and social outcomes. This Handbook provides the tools and data needed to analyze these new dimensions of integration and to assess the content and consequences of DTAs. The Handbook and the accompanying database are the result of collaboration between experts in different policy areas from academia and other international organizations, including the International Trade Centre (ITC), Organisation for Economic Co-operation and Development (OECD), United Nations Conference on Trade and Development (UNCTAD), and World Trade Organization (WTO).

Choice of Law in Copyright and Related Rights - Mireille M. M. van Eechoud 2003-01-01

Nobody denies that the traditional territorial approach to copyright and other intellectual property rights has come under pressure. Yet it persists. Faced with the need to determine the applicable law in cross-border cases, lawyers everywhere wrestle with the implications of the territorial nature of copyright and related rights. In this book Mireille van Eechoud clears the way to the formulation of conflict rules that reflect the purpose of copyright law- to protect creators and stimulate the production and use of information- without reverting to old-fashioned notions of territoriality. She shows how the applicable law can be determined for four distinct legal avenues of intellectual property law: Which exclusive rights exist in an intellectual creation and for how long; Who is considered to own such right; How can these rights be transferred; and What constitutes infringement of copyright and related rights. Mireille van Eechoud shows how, when each of these questions is approached in the light of the different allocation principles used in modern choice of law, a new clarity begins to emerge that promises in time to build a set of conflict rules well suited to the unprecedented copyright and related rights issues that we find so difficult to resolve today. Her in-depth analysis draws in the classis multilateral conventions and treaties, underlying policies, technological and economic developments, utilitarian grounds versus justice considerations, and issues of infringement in the digital environment. INFORMATION LAW SERIES 12.

The Indigo Book - Christopher Jon Sprigman 2017-07-11

This public domain book is an open and compatible implementation of the Uniform System of Citation.

Guide to the International Registration of Marks under the Madrid Agreement and the Madrid Protocol (2008) - World Intellectual Property Organization 2008-09-30

This Guide is primarily intended for applicants and holders of international registrations of marks, as well as officials of the competent administrations of the Member States of the Madrid Union. It leads them through the various steps of the international registration procedure and explains the essential provisions of the Madrid Agreement, the Madrid Protocol and the Common Regulations.

The Protection of Non-Traditional Trademarks - Irene Calboli 2018-12-19

This volume offers a detailed analysis of the issues related to the protection of non-traditional marks. In recent years, the domain of trademark law and the scope of trademark protection has grown exponentially. Today, a wide variety of non-traditional marks, including colour, sound, smell, and shape marks, can be registered in many jurisdictions. However, this expansion of trademark protection has led to heated discussions and controversies about the impact of the protection of non-traditional marks on freedom of competition and, more generally, on socially valuable use of these or similar signs in unrelated non-commercial contexts. These tensions have also led to increasing litigation in this area across several jurisdictions. This book provides an overview of the debate and state of the law surrounding non-traditional marks at the international, regional, and national level. In particular, this book addresses relevant international treaties administered by the World Intellectual Property Organization (WIPO) and the Agreement on Trade-Related Aspects to Intellectual Property Rights (TRIPS) as well as several regional and national legislations and leading judicial decisions in order to examine current law and practice culminating in critical reflections and suggestions on the topic. This is an open access title available under the terms of a CC BY-NC-ND 3.0 licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and

selected open access locations.

Access to Knowledge in Africa - Chris Armstrong 2010

"This book is a result of an international and interdisciplinary research project known as the African Copyright and Access to Knowledge (ACA2K) project"--Acknowledgments.

Gowers Review of Intellectual Property - Andrew Gowers 2006-12-06

This report examines the importance of intellectual property (IP), ranging from patents, copyright, design and trade marks, and whether in the age of globalization, digitization and increasing economic specialization it still creates incentives for innovation, without unduly limiting access to consumers and stifling further innovation. The report does recommend a radical overhaul of the system, with the review concentrating on three areas, and setting out the following recommendations: (i) strengthening enforcement of IP rights, whether through clamping down on piracy or trade in counterfeit goods; (ii) reducing costs of registering and litigating IP rights for businesses large and small; (iii) improving the balance and flexibility of IP rights to allow individuals, businesses and institutions to use content in ways consistent with the digital age.

Transition and Coherence in Intellectual Property Law - Niklas Bruun 2021-01-07

This volume is for students and scholars of intellectual property law, practitioners seeking creative arguments from across the field, and policymakers searching for solutions to changing social and

technological issues. The book explores the tensions between two fundamentally competing demands made of IP law.

Protection of Broadcasters' Rights - Megumi Ogawa 2006

This book deals with a highly topical area: the protection of broadcasters' rights. It is an area in which the World Intellectual Property Organisation (WIPO) has been working to draft a new treaty and has now reached the final stage for conclusion of the treaty. The author analyses the formation and subsequent development of the legislation for protecting broadcasters' rights, and discusses the current legal issues arising out of current proposals at the international and domestic levels to upgrade that protection. The focus of the work is the international protection of broadcasters' rights as well as in the two jurisdictions which are representative of the two-different approaches to protection: Australia and Japan. This volume provides a detailed account of the relevant international treaties and conventions as well as domestic legislation, and provides insightful arguments that present the optimal approach of the future protection of broadcasters' rights. "'This book is an invaluable contribution to our understanding of the issues relating to the protection of broadcasters' rights. The book provides a comprehensive analysis of the protection of broadcasters' rights based on the differing approaches adopted by the common law and civil law systems'." From the foreword by The Honourable Sir Anthony Mason AC KBE CBE.

Islamic Design Laws and Regulations Handbook Volume 1 Strategic Information, Design Law in Selected Countries - IBP USA
