**Entrepreneurship Education  
and Training: The Issue of  
Effectiveness** - Colette Henry  
2017-11-22

This title was first published in

2003. The book covers the areas of: entrepreneurship and economic development; entrepreneurship theories (traditional and alternative); entrepreneurship education and training programmes; a comparative European analysis of entrepreneurship programmes; a profile of the aspiring entrepreneur; assessing effectiveness; and a framework for the design and

development of entrepreneurship training programmes. Readers should gain a significant insight into the effectiveness of entrepreneurship training programmes from both the programme providers' and participants' point of view. Key features of the book include: an up-to-date review of the literature in this field; a comparative analysis of entrepreneurship programmes with a European perspective; an in-depth treatment of the effectiveness issue both on a qualitative and quantitative basis, and a longitudinal study involving a control and comparator group. The framework proposed by the authors should be applicable on a European scale.

**Artificial Intelligence and  
the Law** - Jan De Bruyne  
2021-01-18

Artificial intelligence (AI) is becoming increasingly more prevalent in our daily social and professional lives.

Although AI systems and robots bring many benefits, they present several challenges as well. The autonomous and opaque nature of AI systems implies that their commercialisation will affect the legal and regulatory framework. In this comprehensive book, scholars critically examine how AI systems may impact Belgian law. It contains contributions on consumer protection, contract law, liability, data protection, procedural law, insurance, health, intellectual property, arbitration, lethal autonomous weapons, tax law, employment law, ethics. While specific topics of Belgian private and public law are thoroughly addressed, the book also provides a general overview of a number of regulatory and ethical AI evolutions and tendencies in the European Union. Therefore, it is a must-read for legal scholars, practitioners and government officials as well as for anyone with an interest in law and AI.

*Close-Up C1 Teacher's Book* -

Angela Healan 2015-01-12  
With a new component array and strong digital support, the new edition of Close up has been fully updated to be in line with the new First for Schools 2015 specifications. **Historical Thinking and Other Unnatural Acts** - Samuel S. Wineburg 2001  
Whether he is comparing how students and historians interpret documentary evidence or analyzing children's drawings,

Wineburg's essays offer rough maps of how ordinary people think about the past and use it to understand the present.

These essays acknowledge the role of collective memory in filtering what we learn in school and shaping our historical thinking.

**Smart Blood Sugar** - Marlene Merritt 2017

### **Using Technology in the Classroom** - Dee LaMont Johnson 1997

To encourage teachers to share ideas and suggestions for integrating technology into the classroom, *Using Technology in the Classroom* shows you how to change the way administrators, teachers, parents, and students think about the teaching and learning process. As this important book shows, technology can allow you to make the transition from teacher-directed learning to learner-centered learning, a change that will often draw in even hard-to-reach kids. More and more, society expects educators to incorporate

computer and technology education into their classrooms. This book, with its specific planning and teaching strategies and advice on materials selection, implementation, and evaluation, will be your guide for making technology an integral part of your students' classroom experiences. Getting educators and school administrators to see technology as the key element in school restructuring can be an overwhelming task, but, as this book shows, the practical value of getting students on computers at an early age is immense. You can accommodate a wider range of learning styles, you can guide students as they develop their problem-solving abilities, and help them tap their creative energies. *Using Technology in the Classroom* shows you many practical ways for creating individualized technology-based instructional programs and how to choose software that meets your teaching objectives, is developmentally appropriate, and can be

adapted to each learning situation. To help you improve teaching and learning throughout the school years, this comprehensive guidebook discusses: children's visual education conceptual manipulation on the Internet encouraging students to use computers in personally meaningful and practical ways using sound in school projects the need for culturally relevant learning activities the spreadsheet as a problem-solving tool cultural lag and educational decisionmaking Using Technology in the Classroom can show administrators, school board members, teachers, and university support faculty how to work together to design and use technology in the learning environment. As you will see, site-based professional development experiences that teach teachers how to use technology, multimedia, and telecommunications in the classroom are a first step for making technology a standard component of today's education system.

**Summary, Analysis, and Review of Lysa Terkeurst's Uninvited: Living Loved When You Feel Less Than, Left Out, and Lonely** - Start Publishing Notes 2017-11-07

PLEASE NOTE: This is a key takeaways and analysis of the book and NOT the original book. Start Publishing Notes' Summary, Analysis, and Review of Lysa TerKeurst's Uninvited: Living Loved When You Feel Less Than, Left Out, and Lonely includes a summary of the book, a review, analysis & key takeaways, and a detailed "About the Author" section. PREVIEW: Uninvited: Living Loved When You Feel Less Than, Left Out, and Lonely is an inspirational Christian book. Author Lysa TerKeurst discusses her own experiences with rejection, and urges readers to turn to faith for comfort and love. Rejection from others in the present uncovers wounds in the past. Rejection by others intertwines with self-rejection. These messages of rejection and self-rejection become self-fulfilling; when you internalize rejection,

you damage your own ability to interact honestly, openly, and generously with others and with God.

*Evaluating the Quality of Learning* - John B. Biggs

2014-05-10

Educational Psychology Series: Evaluating the Quality of Learning: The SOLO Taxonomy (Structure of the Observed Learning Outcome) focuses on the approaches, methodologies, and techniques employed in the valuation of the quality of learning. The publication first offers information on the quality and quantity of learning and origin and description of the Structure of the Observed Learning Outcome (SOLO) taxonomy. Discussions focus on general intellectual development and the growth of quality; some assumptions and applications of stage theory; from developmental stage to levels of learning quality; and general intellectual development and the growth of quality. The text then examines the teaching of history, elementary mathematics,

English, and geography. Topics include interpreting a map and drawing conclusions, explaining a natural phenomenon, appreciation of poetry, implications for the teaching of history, English, and mathematics, numbers and operations, and general application of SOLO to history. The manuscript takes a look at modern languages, place of the taxonomy in instructional design, and some methodological considerations. Concerns include alternative formats for obtaining SOLO responses, instructional processes, curriculum analysis, remediation, and teacher intentions. The publication is a vital source of data for educators interested in the SOLO taxonomy.

**Teaching Thinking** - Edward De Bono 1991

Is thinking a matter of intelligence or a skill that can be taught deliberately? Can thinking be taught directly as a curriculum subject in schools?

**Primary Writing Practice** -

## **Super Grammar** - Tony

Preciado 2013-02-01

Think grammar is difficult? You just need someone to save you from it! The best learning tools for a young mind are word association, visual aids, and superpowers! In SUPER GRAMMAR, all of the major elements of grammar will be personified with superhero or super villain identities. You won't just learn about the part-of-speech called an adverb. Instead you'll meet the vibrant super heroine The Adverb, and you'll learn about her awesome ability to modify verbs and other adverbs. You won't simply be told that you shouldn't use a double negative in a sentence. Instead you'll actually meet the sinister twin brothers, Double Negative, and you'll learn how to avoid being tricked into falling for their double talk. The book's fun, full-color design looks like a mix between a reference book and a comic book. With SUPER GRAMMAR you'll learn to save yourself!

## **Thinking Skills & Eye Q** -

Oliver Caviglioli 2002-05-01

At last! A book that reveals what thinking looks like. Think you can't see someone's thinking? Think again! This book reveals what happens when the normally private, hidden and undefined act of thinking is transformed into one that is public, available and explicit. Thinking Skills and Eye Q is the world's first lexicon of visual tools - once tooled up, you can transform teaching and learning in your classroom. Thinking Skills and Eye Cue is a breakthrough in thinking. Ironically, there has been lots of fuzzy thinking about thinking skills. Caviglioli, Harris and Tindall, though, are very clear about what thinking is. In this book, they link thinking skills with visual tools and the genres that pupils encounter in every lesson. The book provides a theory of learning that oozes practicality, common sense and relevance at all Key Stages. Thinking Skills and Eye Q is a smart tool kit, for transforming teaching and learning. This book shows how to use 40 different visual tools to: infuse the teaching of

the five National Curriculum Thinking Skills into subject teaching develop writing skills in all six genres show pupils how to be independent and creative thinkers and learners make speaking and listening, questioning and responding an integral part of all lessons raise IQ

**Diabetic Cookbook for the Newly Diagnosed** - Jamie Press 2020-09-27

Grab the copy and enjoy food again!

[Introduction to European Tax Law on Direct Taxation](#) -

Michael Lang 2016

The book provides an introduction to European law on direct taxation. It includes an overview of the sources of European law, the impact of the fundamental freedoms on direct taxation and the relevance of the European state aid provisions in tax matters. Further, it analyses all relevant directives in the field of direct taxation, namely the Parent-Subsidiary Directive, the Merger Directive, the Interest and Royalty Directive, looks at mutual assistance, as well as the EU Arbitration

Convention. This edition has some structural changes, primarily made to adapt the analysis of European tax integration to the application of the EU Charter on Fundamental Rights in tax matters and the development of global tax competition. The latter phenomenon is being targeted by the BEPS and Tax Transparency projects in a supranational framework that coordinates the exercise of national taxing rights around the globe and which also has significant repercussions for European tax integration.

Web 2.0 - Gwen Solomon 2007  
What can Web 2.0 tools offer educators? Web 2.0: New Tools, New Schools provides a comprehensive overview of the emerging Web 2.0 technologies and their use in the classroom and in professional development. Topics include blogging as a natural tool for writing instruction, wikis and their role in project collaboration, podcasting as a useful means of presenting information and ideas, and how to use Web 2.0 tools for

professional development. Also included are a discussion of Web 2.0 safety and security issues and a look toward the future of the Web 2.0 movement. Web 2.0: New Tools, New Schools is essential reading for teachers, administrators, technology coordinators, and teacher educators.

**The Big Businessman from Kuala Lumpur** - Kėris Mas 2011

This 1st grade math workbook is intended to help children learn the necessary fundamentals of first grade math and second grade math. These proven activities will help prepare your child for

success in basic 1st grade math. If you are looking for a fun way to boost your child's learning, while providing hours of screen-free entertainment, then click "Add to cart".

*Digital Didactical Designs* - Isa Jahnke 2015-08-14

As web-enabled mobile technologies become increasingly integrated into formal learning environments, the fields of education and ICT (information and communication technology) are merging to create a new kind of classroom:

CrossActionSpaces. Grounding its exploration of these co-located communication spaces in global empirical research, *Digital Didactical Designs* facilitates the development of teachers into collaborative designers and evaluators of technology-driven teaching and learning experiences—learning through reflective making. The Digital Didactical Design model promotes deep learning expeditions with a framework that encourages teachers and researchers to study, explore, and analyze the applied

designs-in-practice. The book presents critical views of contemporary education, theories of socio-technical systems and behavior patterns, and concludes with a look into the conceptual and practical prototypes that might emerge in schools and universities in the near future.
