I'm Special - Ryan O'Connell 2015-06-02
NOW a NETFLIX series entitled Special from Executive Producer JIM PARSONS starring RYAN O'CONNELL as himself. From the beloved blogger turned voice of an online generation, an unforgettable and hilarious memoir-meets-manifesto exploring what it means to be a millennial gay man living with cerebral palsy, which VICE calls "a younger, gay version of Mary Karr's Lit." People are obsessed with Ryan O'Connell's blogs. With tens of thousands reading his pieces on Thought Catalog and Vice, watching his videos on YouTube, and hanging on to each and every #dark tweet, Ryan has established himself as a unique young voice who's not afraid to dole out some real talk. He's that candid, snarky friend you consult when you fear you're spending too much time falling down virtual k-holes stalking your ex on Facebook or when you've made the all-too-common mistake of befriending a psycho while wasted at last night's party and need to find a way to get rid of them the next morning. But Ryan didn't always have the answers to these modern-day dilemmas. Growing up gay and disabled with cerebral palsy, he constantly felt like he was one step behind everybody else. Then the rude curveball known as your twenties happened and things got even more confusing. Ryan spent years as a Millennial cliché: he had dead-end internships; dabbled in unemployment; worked in his pajamas as a blogger; communicated

mostly via text; looked for love online; spent hundreds on "necessary" items, like candles, while claiming to have no money; and even descended into aimless pill-popping. But through extensive trial and error, Ryan eventually figured out how to take his life from bleak to chic and began limping towards adulthood. Sharp and entertaining, I'm Special will educate twentysomethings (or other adolescents-at-heart) on what NOT to do if they ever want to become happy fully functioning grown-ups with a 401k and a dog.

Crime Hits Home - S.J. Rozan 2022-04-19
The newest anthology from Mystery Writers of America explores the theme of home and the crimes that endanger it, with stories by Ellen Hart, Naomi Hirahara, Walter Mosley, Sara Paretsky and more. Everyone comes from someplace. Everyone has somewhere they feel safe. Some people have found their home and are content where they are. Others feel trapped and yearn to go somewhere else. Many are somewhere else and yearn to go back. But even in these safest of places, sometimes...crime hits home. What happens then? In this volume, MWA brings together some of today's biggest crime writers—and some of our most exciting new talents—to consider this question. Each writer has defined home as they see fit: a place, a group, a feeling. The crime can come from without or within. What happens when crime hits home? Featuring stories from: Naomi Hirahara David Bart Sara Paretsky Susan Breen Gary Phillips Neil S. Plakcy Renee James Connie

The Path of Emancipation - Thich Nhat Hanh
2013-11-20

"This is a book of wise and wonderful teachings, a breath of fresh air for the heart. It opens the doors to an awakened life." —Jack Kornfield, author of *After the Ecstasy, the Laundry* "Thich Nhat Hanh is one of the greatest teachers of our time. He reaches from the heights of insight down to the deepest places of the absolutely ordinary." —Robert Thurman, Professor of Indo-Tibetan Buddhist Studies, Columbia University

The Path of Emancipation transcribes Thich Nhat Hanh's first twenty-one day retreat in North America in 1998, when more than four hundred practitioners from around the world joined him to experience mindfulness. This book deliberately preserves the tone and style of a retreat, including soundings of the bell, meditation breaks, and the question-and-answer sessions. This not only provides a genuine feeling of a retreat for those who have not had the chance to participate in one, but it also preserves this wonderful practice time for those who have attended. In *The Path of Emancipation*, Thich Nhat Hanh translates the Buddhist tradition into everyday life and makes it relevant and transforming for us all. Studying in-depth the Discourse on the Full Awareness of Breathing, he teaches how mindfulness can help us reduce stress, and live simply, confidently, and happily while dwelling in the present moment. When Thich Nhat Hanh discovered this discourse, he said, "I felt I was the happiest person in the world."

The Five Dysfunctions of a Team - Patrick M. Lencioni 2011-12-19

The blockbuster bestseller now in a manga edition--fully illustrated and fun to read! Beautifully illustrated by Kensuke Okabayashi, this enthralling edition of Patrick Lencioni's massive bestseller gives readers a new format in which to understand the fascinating, complex world of teams. Kathryn Petersen, Decision Tech's CEO, faces the ultimate leadership crisis: Uniting a team in such disarray that it threatens to bring down the entire company. Will she

succeed? Will she be fired? Will the company fail? Lencioni's gripping tale serves as a timeless reminder that leadership requires as much courage as it does insight. Throughout the story, Lencioni reveals the five dysfunctions that go to the heart of why teams--even the best ones--often struggle. He outlines a powerful model and actionable steps that can be used to overcome these common hurdles and build a cohesive, effective team. This is a compelling fable with a powerful, yet deceptively simple message for all those who strive to be exceptional leaders.

Kensuke Okabayashi (Jersey City, NJ) is a working illustrator, a graduate of the School of Visual Arts, and an instructor at the Educational Alliance Art School in New York City.

What I Did for Love LP - Susan Elizabeth Phillips 2009-02-24

How did this happen? Georgie York, once the costar of America's favorite television sitcom, has been publicly abandoned by her famous husband, her film career has tanked, her father is driving her crazy, and her public image as a spunky heroine is taking a serious beating. What should a down-on-her-luck actress do? Not go to Vegas . . . not run into her detestable former costar, dreamboat-from-hell Bramwell Shepard . . . and not get caught up in an ugly incident that leads to a calamitous elopement. Before she knows it, Georgie has a fake marriage, a fake husband, and maybe (or not) a fake sex life. It's a paparazzi free-for-all, and Georgie's nonsupporting cast doesn't help. There's Bram's punk-nightmare housekeeper, Georgie's own pushy parent, a suck-up agent, an icy studio head with a private agenda, and her ex-husband's new wife, who can't get enough of doing good deeds and saving the world—the bitch. As for Georgie's leading man, Bram's giving the performance of his life, but he's never cared about anyone except himself, and it's not exactly clear why. Two enemies find themselves working without a script in a town where the spotlight shines bright . . . and where the strongest emotions can wear startling disguises.

[The Borrowed](#) - Chan Ho-Kei 2017-01-03

A legendary detective uncovers Hong Kong's darkest crimes: "An ambitious narrative brilliantly executed . . . What an achievement!" (John Burdett, author of Bangkok 8). From award-winning author Chan Ho-kei, *The Borrowed* tells the story of Kwan Chun-dok, a detective who's worked in Hong Kong fifty years. Across six decades of Hong Kong's volatile history, the narrative follows Kwan through the Leftist Riot of 1967, when a bombing plot threatens many lives; the conflict between the HK Police and ICAC (Independent Commission Against Corruption) in 1977; the Tiananmen Square Massacre in 1989; the Handover in 1997; and the present day of 2013, when Kwan is called on to solve his final case, the murder of a local billionaire, in a modern Hong Kong that increasingly resembles a police state. Along the way we meet Communist rioters, ultra-violent gangsters, pop singers enmeshed in the high-stakes machinery of star-making, and a people always caught in the shifting balance of political power, whether in London or Beijing. Tracing a broad historical arc, *The Borrowed* reveals just how closely everything is connected, how history repeats itself, and how we have come full circle to repeat the political upheaval and societal unrest of the past. It is a gripping, brilliantly constructed novel from a talented new voice.

[The Gifted Ones](#) - P. G. Shriver 2012-02-15

Cheater--bounced from foster home to foster home since a fire at age five--runs away in search of the endless fairytale destination emphasized by her late mother. The young girl's picture dawns every post in every city and the law seeks her for murder. She has nothing left to lose on her search, except her freedom. Jazz--good-boy-gone-bad--turns to crime after his mother is hospitalized and his seventeen-year-old sister dies at the hands of his stepfather. Longing to free himself of the Beast, he struggles with the bitter taste of defeat as his mother's life balances between his world and the next. When Cheater encounters Jazz in the midst of mugging a ten year old boy, Jazz's hopeless perspective changes. Cheater has that affect on people; she just doesn't realize why. But Jazz knows why. He's been the recipient of her unusual "power," so he tails her, forcing her to comprehend that their connection reaches farther back than the twenty-four hours they've

been acquainted. In spite of deadly doubts, Cheater welcomes her new companion on their journey for truth and their search for Paradise. Bonded by familiarity, fate and fairytale, an evil awaits their arrival--the menacing, faceless monster who haunts Cheater's dream. The end is coming, and The Gifted Ones will write the path. Check out *The Gifted Ones The Dream*, the second book in the trilogy, which is also part of the royalty donation in the Young Scholars' Contest sponsored by this author.

[Rescuing a Broken America](#) - Michael Coffman 2010-11-02

A plan for restoring and protecting freedom, based on the United States Constitution. There has been a deliberate effort over the past one hundred years to change the worldview of Americans from a liberty and constitutionally focused world view, based on the writings of Englishman John Locke, to that of government control of the individual based on the writings of Frenchman Jean Jacques Rousseau. Rousseau's

model of state control now dominates government policy and America's world view, and the free market, civil liberties and protections guaranteed by the United States Constitution are being destroyed. The Rousseau world view dominates our education, judicial, media, and legislative institutions with what is called progressivism. This leads to socialism, fascism, and even communism. It is what has inflamed the backlash known as the tea party movement. There is hope, however. Although seriously weakened, the Constitution still stands, and its protections are still in most laws at the federal and state level that offers protections for local communities that are generally unknown to most people—even attorneys. The book explains why Americans are so divided, how the destruction of liberty occurred, who is behind it, and how Americans can stop this destruction of our way of life by electing constitutionally based candidates to office and protect their communities from egregious federal and state laws and regulations.

Sapiens - Yuval Noah Harari 2015-02-10
New York Times Bestseller A Summer Reading Pick for President Barack Obama, Bill Gates, and Mark Zuckerberg From a renowned historian comes a groundbreaking narrative of humanity's creation and evolution—a #1 international bestseller—that explores the ways in which biology and history have defined us and enhanced our understanding of what it means to be “human.” One hundred thousand years ago, at least six different species of humans inhabited Earth. Yet today there is only one—homo sapiens. What happened to the others? And what may happen to us? Most books about the history of humanity pursue either a historical or a biological approach, but Dr. Yuval Noah Harari breaks the mold with this highly original book that begins about 70,000 years ago with the appearance of modern cognition. From examining the role evolving humans have played in the global ecosystem to charting the rise of empires, *Sapiens* integrates history and science to reconsider accepted narratives, connect past developments with contemporary concerns, and examine specific events within the context of larger ideas. Dr. Harari also compels us to look ahead, because over the last few decades humans have begun to bend laws of natural selection that have governed life for the past four billion years. We are acquiring the ability to design not only the world around us, but also ourselves. Where is this leading us, and what do we want to become? Featuring 27 photographs, 6 maps, and 25 illustrations/diagrams, this provocative and insightful work is sure to spark debate and is essential reading for aficionados of Jared Diamond, James Gleick, Matt Ridley, Robert Wright, and Sharon Moalem.

War & War - László Krasznahorkai 2006-04-17

From the winner of the 2015 Man Booker International Prize A novel of awesome beauty and power by the Hungarian master, Laszla Krasznahorkai. Winner of a 2005 PEN Translation Fund Award. *War and War*, Laszla Krasznahorkai's second novel in English from New Directions, begins at a point of danger: on a dark train platform Korim is on the verge of being attacked by thuggish teenagers and robbed; and from here, we are carried along by the insistent voice of this nervous clerk.

Desperate, at times almost mad, but also keenly empathic, Korim has discovered in a small Hungarian town's archives an antique manuscript of startling beauty: it narrates the epic tale of brothers-in-arms struggling to return home from a disastrous war. Korim is determined to do away with himself, but before he can commit suicide, he feels he must escape to New York with the precious manuscript and commit it to eternity by typing it all on the world-wide web. Following Korim with obsessive realism through the streets of New York (from his landing in a Bowery flophouse to his moving far uptown with a mad interpreter), *War and War* relates his encounters with a fascinating range of humanity, a world torn between viciousness and mysterious beauty. Following the eight chapters of *War and War* is a short "prequel acting as a sequel," "Isaiah," which brings us to a dark bar, years before in Hungary, where Korim rants against the world and threatens suicide. Written like nothing else (turning single sentences into chapters), *War and War* affirms W. G. Sebald's comment that

Krasznahorkai's prose "far surpasses all the lesser concerns of contemporary writing."

Lesbian Health - Institute of Medicine
1999-05-11

Women's health, as a field of study, is a developing discipline. Health theories in general have been based on studies of men. However, in recent years, more attention has shifted to women's health, realizing the disparities between men and women in relation to their health. During the last two decades, a similar shift has occurred for a group of women--lesbian women--to further identify and specify their health needs. Over the past decade, lesbians have organized to call for attention to the health issues of this community, resulting in several federally funded research initiatives. This book offers a comprehensive view of what is known about lesbian health needs and what questions need further investigation, including: How do we define who is lesbian? Are there unique health issues for lesbians? Are lesbians at higher or lower risk for such health problems as AIDS, sexually transmitted diseases, breast cancer, mental disorders, and substance abuse? How does homophobia affect lesbian health and the funding of research on lesbian health? How do lesbian health needs fit into the health care system and the larger society? What risk and protective factors shape the physical and mental health of lesbians? The book discusses how to determine which questions to ask about sexual orientation, the need to obtain information without violating privacy, the importance of considering racial and ethnic diversity in the study of lesbians, strategies for exchanging information among researchers and disseminating findings to the public, and mechanisms for supporting greater numbers of researchers. *Lesbian Health* takes a frank look at the political pressures, community attitudes, and professional concerns uniquely affecting the study of lesbian health issues. The book explores many other issues including the potential for transferring findings in this field to other population groups, including other rare populations and women in general.

Summer Winter Salvage - C. A. Gleason
2014-03-28

The current planet the LES Corporation is excavating holds much value but it's also one of the most dangerous. Nicknamed Summer Winter, its temperatures can drop a hundred degrees within hours and its storms are deadly. As management considers abandoning Summer Winter from off planet, one of the remaining crews is tasked to repair an inoperable vehicle. While on site, a member of the crew mysteriously turns homicidal, and after a storm hits, the survivors find themselves isolated at a warehouse without any communication and far from base. A desperate plan is set in motion, and not just because their oxygen will run out soon. They uncover something that makes them realize a deadly storm is the least of their problems.

50 Rules Kids Won't Learn in School - Charles J. Sykes 2007-08-21

Charles J. Sykes offers fifty life lessons not included in the self-esteem-laden, reality-light curriculum of most schools. Here are truths about what kids will encounter in the world post-schooling, and ideas for how parents can reclaim lost ground---not with pep talks and touchy-feely negotiations, but with honesty and respect.

Sykes's rules are frank, funny, and tough minded, including: #1 Life is not fair. Get used to it. #7 If you think your teacher is tough, wait until you get a boss. He doesn't have tenure, so he tends to be a bit edgier. When you screw up, he's not going to ask you how you FEEL about it. #15 Flipping burgers is not beneath your dignity. Your grandparents had a different word for burger flipping. They called it "opportunity." #42 Change the oil. #43 Don't let the success of others depress you. #48 Tell yourself the story of your life. Have a point. Each rule is explored with wise, pithy examples that parents, grandparents, and teachers can use to help children help themselves succeed---in school and out of it. A few rules kids won't learn in school: #9 Your school may have done away with winners and losers. Life hasn't. #14 Looking like a slut does not empower you. #29 Learn to deal with hypocrisy. #32 Television is not real life. #38 Look people in the eye when you meet them. #47 You are not perfect, and you don't have to be. #50 Enjoy this while you can.
